

**MONTE CARLO SIMULATION FOR ESTIMATING
HYDROCARBON RESERVES IN U-THONG FIELD,
SUPHAN BURI BASIN, CENTRAL THAILAND**

VU MINH TUAN

AN INDEPENDENT STUDY SUBMITTED TO THE GRADUATE
SCHOOL IN PARTIAL FULFILLMENT OF THE REQUIREMENTS
FOR THE DEGREE OF
MASTER OF SCIENCE
IN PETROLEUM GEOSCIENCE

ACKNOWLEDGEMENTS

The author would like to thank PTT Exploration and Production Public Company Limited for giving him an opportunity to apply the Monte Carlo simulation to a real oil field. His thank is also extended to Dr. Pisanu Wongpornchai, Assoc. Prof. Dr. Sampan Singharajwarapan, and Mr. Sidney Lee Rieb of the Department of Geological Sciences, Faculty of Science, Chiang Mai University, and Mr. Surawit Praditdan - Senior Manager of Technical Study and Knowledge Management Department, Mr. Soravuth Yuvasasiri - Senior Manager of Geology Department, and Mrs. Kasana Soonthornsaratul - Senior Geologist, Geology Department, PTTEP, for their helps in his data collecting, studying, and report completion.
