LEPTIN GENE POLYMORPHISM IN ALCOHOLIC PATIENTS

The seal of Chiang Mai University is a large, circular emblem in the background. It features a central elephant standing and facing left, with a sunburst or flame-like symbol above its head. The Thai text "มหาวิทยาลัยเชียงใหม่" (Mahavithayalai Chiang Mai) is written in a circular path around the top, and "CHANG MAI UNIVERSITY 1964" is written around the bottom. There are also decorative floral motifs on the sides.

ACKNOWLEDGEMENTS

I wish to express my gratitude and deepest appreciation to Professor Tanin Bhoopat, thesis advisor, for providing me opportunity to do this research, precious guidance, valuable advice through this study. This thesis would not have been completed successfully, without helps from my co-advisors, Assistant Professor Dr. Ngamwong Jarusuraisin who always suggest, comment and remind me through this study. Special thanks are extended to Dr. Heinrich F. Steger, thesis co-advisor for design PCR primer, teaching sequencing, thesis proof-reading, kindness and support in many aspects through this study.

I would like to express sincere thanks to Associate Professor Dr. Weerawan Ruangyuttikarn and Assistant Professor Siriporn Phuntasri for their kindness, support and valuable advice in many aspect throughout my graduate career.

I am also particularly thankful to the volunteers and all the members of the psychiatric OPD, Maharaj Nakorn Chiang Mai hospital, Chiang Mai Province, Thailand, for their sacrifice and help.

Thanks Miss Phawinee Thongsrisomboon, Miss Orapin Tepsingkaew, and Toxicology M.S. students for their kind help, valuable encouragement, understanding and sincere friendship.

Thanks Miss Napaphan Sakuludomkan for her valuable advice.

I would like to express my appreciation to Miss Nilubol Jitmun and Miss Unyamanee Petcharut for their valuable critical proof reading this thesis.

My special thanks go to Mr. Sutat Sriduangkaew and Mr. Witoon Tasuya for their laboratory training and facilitating me to do laboratory.

I wish to thank all of the staff in the toxicology unit, Department of Forensic Medicine, Faculty of Medicine, Chiang Mai University, for their support and facilities throughout my study.

This study was granted by the Faculty of Medicine Endowment Fund for Medical Research. Therefore, the author would like to express sincerely thanks for valuable support here

I would like to thank my father, for strongly inspiration to do this thesis project. Finally, I would like to express my deepest gratitude to my mom and grandmom for their sincere love, deepest patience, great kindness, undoubted understanding and continuous encouragement throughout this study.
