ACKNOWLEDGEMENTS

I gratefully acknowledge the Thailand Research Fund for awarding me with a Royal Golden Jubilee Ph.D Scholarship. I also thank the McKnight Foundation and Postgraduate Development Program of the Commission on Higher Education of Thailand, Department of Agronomy, Faculty of Agriculture, Chiang Mai University for the financial support in some parts of my research.

I deeply thank my advisors, Professor Dr. Benjavan Rerkasem, Associate Professor Dr. Richard W Bell, Dr. Tim D Colmer, Associate Professor Bernie Dell and Associate Professor Dr. Sansanee Jamjod for providing me with continuous support during the long process of this research.

I also thank Mr. Sittichai Lordkaew at the Multiple Cropping Center, Faculty of Agriculture, Chiang Mai University for his help with plant nutrient analysis, Dr. Al Imran Malik and Plant Physiology Laboratory in School of Plant Biology, Faculty of Natural and Agricultural Sciences, The University of Western Australia for their help and providing facilities for root porosity, radial oxygen loss and root respiration measurement, Land Management Laboratory in the School of Environmental Science and Trace Element Laboratory in the School of Biological Sciences and Biotechnology, Department of Science and Engineering, Murdoch University for chemical, histology, microscopy and glasshouse facilities, R.F Reinke Breeder/Research Officer, Yanco Agricultural Institute, NSW Agriculture for Amaroo, Langi and Kyeema seeds.

Thanks to all the staff of the CMUPNlab, Agronomy and Multiple Cropping Center, Faculty of Agriculture, Chiang Mai University; students at the CMUPNlab,

Agronomy Department, Faculty of Agriculture, Chiang Mai University, staffs of the Land Management Group, Murdoch University and staffs of Plant Physiology Laboratory, The University of Western Australia, who are friends and colleagues, for their help.

Finally, I would like to thank my family, my grandparents, my parents, my sisters and Phurt Sakulchangsattajai, my best friend for their patience, willpower and support through to the end of this research.
