## ACKNOWLEDGEMENTS

I gratefully acknowledge Asst. Prof. Dr. Prasert Hanmoungjai, my advisor, for all valuable suggestion, supporting and encouragement throughout investigation in this thesis. This thesis would not be accomplished without his assistance and great comment.

I am also pleased to thank Dr. Ampin Kuntiya, Lecturer of the Department of Biotechnology, Faculty of Agro-Industry, Chiang Mai University and Dr. Piyanuck Boonkumklao, Lecturer of the Department of Biology, Faculty of Science, Maejo University, for their valuable advices and suggestion.

I would like to thank all lecturers, technicians, friends and students at the Department of Biotechnology, Faculty of Agro-Industry, Chiang Mai University, for their help, support, advice and friendship during my graduate study.

I profoundly thank my parents for their encouragement during my study.

This work was partly supported by The Graduate School of Chiang Mai University.

Niratsa Sae-tan
