ACKNOWLEGMENT

I wish to express my profound gratitude and thanks to Assoc. Prof. Dr. Worawit TAYATI, my advisor, and chairperson of the thesis examination committee for his invaluable guidance, constructive suggestions and constant encouragement throughout this piece of work. His generous support, enthusiasm and understanding made this study a success and rewarding experience to me. I also wish to express my deep sense of gratitude and profound thank to Mr. Warit RATTANACHUEN, my co-advisor for his constant support, guidance and suggestions to the present work.

Sincere thanks are due to Dr. Suthep LERTSRIMONGKOL, who guide me in the capacity of academic advisor throughout the study period at Chiang Mai University (CMU), and also to Assoc. Prof. Yongyoot JAIBOON, who kindly agreed to serve as a logging, registrations and others with their staffs and colleagues. Their great help and suggestions were invaluable.

My heartfelt sincere thanks go to Mr. Khamphone SAIYASANE, the general manager of Electricité du Laos who encouraged me to go for postgraduate studies. Also to all executive board directors of Electricité du Laos, who helped me in numerous ways to make this study a success.

I am deeply indebted to Electricité du Laos (EDL), Electricity Generating Authority of Thailand (EGAT), CMU, for granting me an invaluable opportunity by way of a full scholarship, which paved the way to achieve my academic goal and completed this piece of work.

And also, Thanks are due to Mr Akrapong BUNNAG programmer and his colleague for their great support in the field of software and program. Thanks to all parties that contributed to this piece of work completion.

No words can ever express my deepest gratitude to my wife, my children and all my friends and colleagues for their support. To them I humbly dedicate this piece of work.

Phoummy NETIBANEDITH
