ACKNOWLEDGEMENT

I wish to express my sincere gratitude and deep appreciation to my advisory committee namely Dr. Tippawan Prapamontol, Assoc. Prof. Dr. Ookaew Prakobvitayakit, Asst. Prof. Dr. Yuthsak Vaneesorn, Asst. Prof. Ampica Mangklabruks, and Prof. Dr. Bertold Hock for their invaluable guidance, and encouragement throughout my research work. I would like to express my thankfulness to Assoc. Prof. Dr. Prasak Thavornyutikarn and Prof. Dr. Pornchai Sithisarankul for their kind advice on my thesis work.

I would like to acknowledge the Royal Golden Jubilee Ph.D. Program, The Thailand Research Fund (TRF) and Health Systems Research Institute, the Ministry of Public Health, for granting me a Scholarship and research funds, respectively. I also would like to acknowledge the German Academic Exchange Service (DAAD) for granting me a scholarship and financial support for conducting research in Germany.

I sincerely appreciate the Research Institute for Health Sciences, Chiang Mai University for providing facilities during the research work and Prof. Dr. Bertold Hock, the Chair of Cell Biology, Technical University of Munich, for hosting me for a portion of research work.

I am grateful to Dr. John Mcdermed for editing the English language. I would like to express my thankfulness to Steffani Handl and other staffs of the Technical University of Munich for their technical method of Enzyme-linked receptor assay. I also would like to thank all staffs of the Pollution and Environmental Health Research

Program, Research Institute for Health Sciences, Chiang Mai University for their hospitality throughout the study.

I am grateful to all volunteer subjects for their cooperation, staffs of the health centers in Mae Rim and Chiang Dao Districts for their assisting, and staffs of Mae Rim Hospital and Chiang Dao Hospital for collecting blood samples.

Finally, I am indebted my beloved family for their inspiration and encouragement.
