ACKNOWLEDGEMENTS

First and foremost, the author would like to express her deep sincere gratitude and appreciation to her supervisor, Assistant Professor Dr. Somporn Chantara for her supervision, guidance and constant encouragement throughout the course of this thesis work. She is thanked for her constructive comments and generous advises for this study.

The author is very much delighted to pay thanks to her co-supervisor, Dr. Urai Tengjaroenkul Department of Chemistry, Faculty of Science and Assistant Professor Dr. Sittisin Bovonsombut, Department of Food Technology, Faculty of Engineering and Agro-Industry, Maejo University for their useful advice and their kindness to be her examiners in this thesis.

Thanks are also due to Mr. Pisan Kisawatpaiboon for his help and admirable technical service and the Department of Chemistry, Faculty of Science Chiang Mai University for the provision of laboratory facilities.

The author is thankful to Lanna Agro Industry Co., Ltd. for providing her carbofuran and carboxin standard. Great thanks are also due to Ms. Pamornwan Nutniyom for providing methomyl standard.

The author is greatly appreciates all of the academic staff of the Environmental Science Program for their kindness in transferring their knowledge and experiences in her studies. Sincere thanks are extended to friends whose names are not listed here and those who have directly or indirectly contributed the success of this

work. Thanks are also due to Environmental Science colleagues Mr. Narayan Bahadur Bist and Mrs. Susy Lahtiani for being so cooperative and affectionate.

The author would like to express her sincere thanks and appreciation to the Government of the Union of Myanmar and Thai International Development of Cooperation Agency for awarding her a scholarship to undertake the International M.S Programme in Environmental Science.

Finally, the author is really grateful to her beloved parents, U Thein Zan and Daw Khin Ma Ma, her aunts, sisters and brother for their unwavering encouragement, understanding, prayer and moral support which has enabled her to do her work despite some upsetting and unbalancing moments.

Khin Lay Zan
