ACKNOWLEDGEMENTS

I would like to express my deepest thank to Prof. Dr. Sompong Dhompongsa, my thesis advisor, for his many useful suggestions and generous support while I was doing this thesis.

I also wish to express my gratitude to Prof. Dr. W.A. Kirk from the University of Iowa (United States of America) and Prof. Dr. T. Dominguez Benavides from Universidad de Sevilla (Spain) for their kind hospitality and helpful conversation concerning the thesis while I was visiting the University of Iowa (United States of America) and Universidad de Sevilla (Spain), respectively. I also thank Assoc. Prof. Dr. B. Sims from the University of Newcastle (Australia) and Prof. Dr. Hung T. Nguyen from New Mexico State University (United States of America) for their helpful discussion during their short visit at Chiang Mai University.

I am thankful to Assoc. Prof. Dr. Suthep Suantai for his talent teaching and valuable advices, Assoc. Prof. Jintana Sanwong, Asst. Prof. Somkid Sakulwattana and Lecturer Roongnapa Packdeesusook for their kind encouragement and warm attention, Lecturer Dr. Piyapong Niamsup for his impressive course and Assoc. Prof. Dr. Somyot Plubtieng for his helpful suggestions. Furthermore, I wish to thank Asst. Prof. Dr. Gullaya Dhompongsa for her helpful advices.

I appreciate mentioning that my graduate study was supported in part by Naresuan University, under UDC project scholarship, and the Thailand Research Fund, under the Royal Golden Jubilee Ph.D. project scholarship.

I am grateful to my mother for her great patience and heartfelt love. Unforgettably, I would like to thank Adul Baikularb for his splendid taking care of me.

Finally, I wish to thank the following for their help and their great relationships : Attapol Kaewkhao, Bancha Panyanak, Poom Kumam, Rabian Wangkeeree, Satit Saejung, Pattama Jaksurat, Sorngamon Kuntawee, Srenaun Kaewsangjai, Kongkaew Piyanan, Thitimaporn Pooduang and Ganiga Taboonpong.
