ACKNOWLEDGEMENTS

I would like to express my gratitude and sincere thanks to several people who took part in this study. My sincere appreciation goes to Associate Professor Dr. Linchong Pothiban, my chair and academic advisor, for her suggestion, thoughtful comments, and constructive feedback during the work of this dissertation. I would also like to extend my thanks to both of my co-advisors, Assistant Professor Dr. Khanokporn Sucamvang and Assistant Professor Dr. Sirirat Panuthai for their helpful guidance. A very special thank to Professor Dr. Sharon Kay Oswald for her mentorship, guidance, and valuable comments on my work during my study at the University of Texas, School of Nursing at Houston, Houston, Texas, USA. Also, I gratefully acknowledge the thoughtful comments and suggestions offered by Associate Professor Wilawan Senaratana and Assistant Professor Dr. Achra Sukonthasarn, Faculty of Nursing, Chiang Mai University.

I wish to express my gratitude to Mapi Research Institute for permission to use the Stroke Impact Scale and translate it into the Thai language. Also thanks to Dr. Kaimook Gosinthrajit, Chonburi Hospital, Dr. Siriwan Tangjtkamol, Bangkok Metropolitan Medical College and Vajira Hospital, Dr. Dunyaporn Trachootham, Faculty of Dentistry, Thammasat University, and Miss Sinee Suwannakinthorn, Ophthalmology Operating Room, Methodist Hospital, Houston, USA, who have validated the instrument used in this study.

A special thank goes to all staff nurses who helped in recruiting and collecting data during the study. I also would like to extend my recognition to all participants for their cooperation in the study. Special thanks to The Thai Health Promotion Foundation, which provided partial funding of my study. Finally, I would like to acknowledge my friends and my family for all of their support and encouragement.
