

TABLE OF CONTENTS

| | Page |
|---|------|
| Acknowledgements | iii |
| Abstract | vi |
| Table of contents | x |
| List of tables | xiv |
| List of figures | xv |
| Chapter 1 Introduction | 1 |
| Background and significance of the research problem | 1 |
| Objective of the study | 7 |
| Research question and hypotheses | 7 |
| Scope of the study | 8 |
| Definition of terms | 8 |
| Chapter 2 Literature review | 12 |
| Fatigue | 12 |
| Definition of fatigue | 13 |
| Prevalence of cancer-related fatigue | 15 |
| Assessing and measuring cancer-related fatigue | 19 |
| Impact of cancer-related fatigue | 24 |
| Theory of fatigue in cancer patients | 25 |
| Factors influencing fatigue | 33 |
| Treatment patterns | 34 |
| Energy and energy substrate patterns | 37 |

TABLES OF CONTENTS (Continued)

| | Page |
|--|-------------|
| Oxygenation patterns | 39 |
| Symptom patterns | 42 |
| Sleep/wake patterns | 48 |
| Social patterns | 53 |
| Social support | 53 |
| Buddhist practices | 60 |
| Psychological patterns | 63 |
| Summary factors influencing fatigue in the study | 67 |
| The conceptual framework of the study | 69 |
| Chapter 3 Methodology | 73 |
| Research design | 73 |
| Population and sample | 73 |
| Setting | 75 |
| Instrumentation | 76 |
| Protection of human subject | 87 |
| Data collection procedure | 89 |
| Procedures for data analysis | 90 |
| Chapter 4 Results and discussions | 94 |
| Characteristics of the sample | 94 |
| Characteristics of the study variables | 99 |
| Testing assumptions of multivariate analysis | 104 |
| Model testing and modification | 110 |

TABLES OF CONTENTS (Continued)

| | Page |
|--|-------------|
| Hypothesis testing results | 124 |
| Summary of results | 128 |
| Discussions | 128 |
| A model for predicting fatigue | 129 |
| Correlations among exogenous variables | 130 |
| Effects of exogenous variables on endogenous variables | 134 |
| Effect of chemotherapy protocol on fatigue | 135 |
| Effect of BMI on fatigue | 136 |
| Effect of Hb level on fatigue | 136 |
| Effect of pain on fatigue | 137 |
| Effect of nausea and vomiting on fatigue | 139 |
| Effect of sleep disturbance on fatigue | 140 |
| Effect of family support on fatigue | 141 |
| Effect of friend support on fatigue | 142 |
| Effects of mediating variables on endogenous variable | 145 |
| Effect of Buddhist practices on fatigue | 145 |
| Effect of anxiety on fatigue | 147 |
| Effect of depression on fatigue | 148 |
| Summary | 149 |
| Chapter 5 Conclusions and recommendations | 150 |
| Summary of the study | 150 |
| Findings and conclusions | 151 |

TABLES OF CONTENTS (Continued)

| | Page |
|---|-------------|
| Implications | 154 |
| Limitations of the study | 155 |
| Recommendations for further studies | 156 |
| References | 159 |
| Appendices | 191 |
| Appendix A The Patient Demographic Questionnaire | 192 |
| Appendix B The revised Piper Fatigue Scale (PIF) | 194 |
| Appendix C The Modified Symptom Distress Scale (MSDS) | 195 |
| Appendix D The General Sleep Disturbance Scale (GSDS) | 196 |
| Appendix E The Hospital Anxiety and Depression Scale (HADS) | 197 |
| Appendix F The Family APGAR Questionnaire | 198 |
| Appendix G The Friend APGAR Questionnaire | 199 |
| Appendix H The Buddhist Practices Scale (BPS) | 200 |
| Appendix I The back translation experts | 201 |
| Appendix J List of experts for content validity | 202 |
| Appendix K CVI of the BPS | 203 |
| Appendix L Permission to use the instruments | 204 |
| Appendix M IRB Approval | 208 |
| Appendix N Participant information sheet & Inform consent form | 211 |
| Appendix O Examination of Statistical Assumptions | 213 |
| Curriculum vitae | 217 |

LIST OF TABLES

| Table | | Page |
|--------------|---|-------------|
| 3-1 | Reliability coefficient of the instruments used in the study | 88 |
| 3-2 | The Goodness-of-Fit-Indices that used in this study | 93 |
| 4-1 | Demographic characteristics of the study sample | 95 |
| 4-2 | Descriptive of medical history of the sample | 98 |
| 4-3 | Mean, standard deviation, and range of study variables | 102 |
| 4-4 | Number and percentage of the sample by anxiety and depression score | 103 |
| 4-5 | Descriptive values of level of fatigue of the sample | 103 |
| 4-6 | Correlation matrix of the study variables | 108 |
| 4-7 | Assessment of multicollinearity among variables in the model | 109 |
| 4-8 | Covariance matrix of study variables | 111 |
| 4-9 | Process and results for Model Modified: Model 1 and Model 2 | 114 |
| 4-10 | Process and results for Model Modified: Model 3 | 117 |
| 4-11 | Process and results for Model Modified: Model 4 | 118 |
| 4-12 | Process and results for Model Modified: Model 5 (Final model) | 120 |
| 4-13 | Direct, Indirect, and Total Effects of Causal Variables on Affected Variables | 123 |

LIST OF FIGURES

| Figure | Page |
|---|-------------|
| 2-1 The Integrated Fatigue Model | 29 |
| 2-2 A proposed model for predicting fatigue among Thai women receiving adjuvant breast cancer chemotherapy | 72 |
| 4-1 An initial model for predicting fatigue among Thai women receiving adjuvant breast cancer chemotherapy | 115 |
| 4-2 A final model for predicting fatigue among Thai women receiving adjuvant breast cancer chemotherapy | 122 |
