ACKNOWLEDGEMENTS

I wish to express my deep sincere appreciation and gratitude to my major advisor, Associate Professor Wej Choochote, Department of Parasitology, Faculty of Medicine, Chiang Mai University, for his kindness, expert guidance, valuable suggestion, constructive criticism and constant encouragement which enable me to complete my research.

I wish to express my deep sincere appreciation and gratitude to my thesis co-advisors; Associate Professor Dr. Udom Chaithong, Associate Professor Dr. Pradya Somboon, Assistant Professor Dr. Benjawan Pitasawat, Assistant Professor Dr. Pongsri Tippawangkosol and Assistant Professor Dr. Narissara Jariyapan, Department of Parasitology, Faculty of Medicine, Chiang Mai University, for their kindness, valuable guidance, meaningful criticism and help during the study.

I would like to express my sincere gratitude and thank to Associate Professor Dr. Sirichit Wongkamchai, Department of Parasitology, Faculty of Medicine, Siriraj Hospital, Mahidol University, external examination committee for her meaningful suggestion and valuable guidance on this thesis.

I would like to express my sincere gratitude and thank to Associate Professor Dr. Narumon Komalamisra, Department of Medical Entomology, Faculty of Tropical Medicine, Mahidol University, for her help and suggestion in isoenzyme study.

I would like to express my sincere gratitude and thank to Assistant Professor Dr. Gi-Sik Min, Department of Biological Sciences, Inha University, South Korea, for his help and suggestion in molecular genetic study.

I would like to express my sincere gratitude and thank to Dr. Wannapa Suwonkerd, Miss Aungkana Saejeng, and all staffs in Office for Vector Borne Diseases Control 2, Department of Communicable Diseases Control, Ministry of Public Health, Chiang Mai, for their kindness and assistance in supporting of blood containing *Plasmodium falciparum* and *P. vivax*.

Sincere appreciation to the Thailand Research Fund (TRF: BRG/14/2545) and the Thailand Research Fund through the Royal Golden Jubilee Ph. D Program (Grant No. PHD/0044/2546) for financially supporting throughout my graduated study and to the Faculty of Medicine Endowment Fund for Research Publication for its financial support in defraying publication costs.

Certainly, I cannot forget my best friends, Miss Benjawan Tuetan, Miss Atiporn Saeung, Miss Supunnee Promthep, Miss Orapan Sripichai, Miss Noppawan Boonchu, Mr. Damrongpan Thongwat and other friends at Department of Parasitology, Faculty of Medicine, Chiang Mai University for their encouragement and give moral support throughout my study.

Finally, I wish to express all my deepest gratitude to my beloved mother, grandmother, brothers, sisters and teachers for their encouragement and moral support throughout my study.

Anuluck Junkum
