ACKNOWLEDGEMENT

The author would like to express his sincere thanks and appreciation to his supervisor, Asst. Prof. Dr. Chaiyavat Chaiyasut, for his supervision, guidance, continual encouragement and assistance, and also to the co-supervisors, Assoc. Prof. Dr. Boonsom Liawruangrath and Asst. Prof. Dr. Sunee Chansakaow, for valuable guidance and advice on this research work.

The author is deeply grateful to Miss. Umaporn Phusot for her technical suggestion on HPLC and admirable service throughout this research work.

The author would like to thank the Co-operative Research Network (CRN) for partial support.

The author would like to acknowledge the Department of Pharmaceutical Sciences, Faculty of Pharmacy, Chiang Mai University for the provision of excellent laboratory facilities. Thanks are also due to all of the author's friends and graduate students in the Department of Pharmaceutical Sciences, Faculty of Pharmacy, Chiang Mai University, for their useful and understanding throughout this work.

Finally, the author would like to give my special and profound thanks to my father, mother and brothers for their everlasting love, understanding, continual encouragement and support.
