ACKNOWLEDGMENTS

I would like to acknowledge all contributors from inside and outside Chiang Mai University. Firstly, I am sincerely thankful to my supervisor Assoc. Prof. Dr. Pawinee for all her kind supports and for her time whenever I needed some advice. I am also grateful to my co-supervisor Prof. Peter Halling who gave useful advice on theoretical aspects of solid-to-solid peptide synthesis and was very kind when I was in Glasgow.

I am very grateful to my co-supervisors Dr. Lalida Shank for her help in paper and thesis editing, and Asst. Prof. Dr. Hataichanoke Niamsup for her kindness in proposal approving.

I would also like to thank other committee members; Assoc. Prof. Dr. Kanit Krisanangkura and Dr. Theerapong Theppakorn for their many useful suggestions.

I appreciate friendships from everyone in CB2409 laboratory, especially Wirongrong Tongdeesoontorn and Sarote Nitsawang who supported me from the beginning to the end. I would also like to mention Dr. Geeta, Dr. Inga, Dr. Joe, Yan and Alistair in C27 laboratory, Pure & Applied Chemistry, University of Strathclyde, who kindly offered help whenever I needed during my time in Glasgow.

I would like to express my gratitude to the Thailand Research Fund (TRF) for the scholarship of the Royal Golden Jubilee Ph.D. Program and also thank Dr. Bruno Weldermann Foundation for partial financial support.

Finally, I would like to thank my mother and sister for their great support throughout my study.
