ACKNOWLEDGEMENTS

I would like to send my sincere gratitude to Dr. Chartchai Khanongnuch, my advisor at Biotechnology Department, Faculty of Agro-Industry, Chiang Mai University, for his kindness, valuable suggestions and encouragement that have been given to me throughout this research. He has given many advices, suggestions and assistances; furthermore, he always forgives all my mistakes and also every student in our laboratory. My knowledge and success at this point receive from him.

I am grateful to Professor Dr. Saisamorn Lumyong of Biology Department, Faculty of Science, Chiang Mai University, and Assistant Professor Dr. Piyanuch Niamsup of Biology Department, Faculty of Science, Maejo University, who gave many valuable advices, suggestions on this thesis.

Thank you for all members in Enzyme Technology and Microbial Resources Laboratory for their kindly helps, especially, Mr. Wattana Sriphangham for his suggestions and kindly help and Miss Kamrai Woranuch who always help and share when I have a bulk of work.

Finally, special thanks for my family, father, mother, brother and also all relations who have encouraged my education and respected my decisions.
