Acknowledgements	iii
Abstract in Thai	iv
Abstract in English	v
1 Introduction	1
2 Basic Concepts and Preliminaries	8
2.1 Distribution	8
2.2 The Special Functions and Fourier Transform	11
2.3 Partial Differential Equations	13
2.4 Elementary Solutions	16
3 Generalized Diamond Heat Kernel Related to the Spectrum	21
3.1 Main Results	21
3.2 Example	25
4 The Green Function of the $(\oplus + m^2)^k$ Operator	27
4.1 Main Results	27
4.2 Example	30
5 Nonlinear Product of the Diamond and Klein-Gordon Operators Related to the Biharmonic Equation	31
5.1 Main Results	31
5.2 Example	33
6 Application of the Distributions $e^{\alpha t} \square^k \delta$ to the Telegraph Equation	34
6.1 Main Results	34
6.2 Example	36
Bibliography	39
