ACKNOWLEDGEMENT

I am grateful to express my sincere gratitude and appreciation to Associate Professor Rujapa Nimsung, for her excellent guidance, continuous discussion, valuable advice. Without her support and encouragement, this thesis could not be accomplished. Her support and sincerity will be in my mind forever.

My great appreciation is also expressed to Dr. Sureerut Porntadavity, Faculty of Medical Technology, Mahidol University, and Assistant Professor Dr. Audomsark Haesungcharern, Division of Clinical Chemistry, Department of Medical Technology, Faculty of Associated Medical Science for valuable advice, comment and improvement of my thesis.

Very special thanks are also extended to my dear friends in Faculty of Tropical Medicine, Mahidol University, and Faculty of Associated Medical Sciences, Chiang Mai University, for their help and warm friendship.

I am deeply grateful to all the lecturers and staff at the Department of Medical Technology, Division of Clinical Chemistry, Faculty of Associated Medical Science, Chiang Mai for their helpful, warm friendship, cooperation and support.

Ultimately, I wish to express my deepest gratitude from my heart to my parents and my brother for their true love, kindness, support and wonderful inspiration throughout my study. The usefulness of this thesis, I devote to my parents, my advisor and all teachers who have taught me since my childhood.
