ACKNOWLEDGEMENTS	iii
ABSTRACT IN ENGLISH	V
ABSTRACT IN THAI	vii
LIST OF TABLES	xii
LIST OF FIGURES.	xiii
LIST OF APPENDICES	xiv
ABBREVIATIONS AND SYMBOLS	xv
1. INTRODUCTION AND OBJECTIVES	~ 1
1.1 General overview	1
1.2 The livestock sector in Nepal	2
1.3 Pig farming and pig breeds in Nepal	2
1.4 Meat production, inspection, marketing and consumption in Nepal	
1.5 Trichinella and trichinellosis	3 4
1.6 Statement of problem	5
1.7 Scientific justification of the study	6
1.8 Objectives of the study	7
2. LITERATURE REVIEW	8
2.1 Morphology and development of the genus <i>Trichinella</i> .	8
2.2 Life cycle	9
2.3 Different <i>Trichinella</i> species and their epidemiology	10
2.4 Pathogenesis and clinical symptoms referring to Trichinella spiralis	
AII in the human G II S F E S E F V	$e_{13}0$
2.5 Diagnostic measures in animals	16

2.5.1 Direct demonstration of the parasite in tissue samples and	16
digests	
2.5.2 Indirect demonstration of parasites through serological and	
molecular techniques	18
2.5.2.1 Serological methods.	18
2.5.2.2 Molecular techniques	20
2.6 Diagnostic measures in the human	23
2.6.1 Parasitological diagnosis	23
2.6.2 Sero-diagnosis	23
2.7 Therapy.	24
2.8 The control of <i>Trichinella</i> in domestic animals	25
2.9 Economic impacts	27
2.10 Trichinellosis in animals and humans in the global context	28
2.11 Veterinary public health regulatory measures on trichinellosis	
control	33
3. MATERIAL AND METHODS	35
3.1 Study location	35
3.2 Butcheries	37
3.3 Study design and study population	39
3.4 Sample size determination	39
3.5 Definition of samples and sampling strategies	40
G G 3.6 Laboratory analysis	40
3.6.1 Artificial digestion method 3.6.2 Compressorium technique	41 41
3.6.3 Indirect, non-competitive enzyme linked immunosorbent assay	e d
(AB-ELISA)	43
3.6.4 End-point titration by the single dilution AB-ELISA	46

X

3.6.5 Western blot technique	47
3.6.6 Multiplex PCR	47
3.7 Questionnaire survey	47
3.8 Data management and analysis	48
4. RESULTS	49
4.1 Characteristics of the slaughtered pigs	49
4.2 <i>Trichinella</i> investigation through Pepsin digestion	49
4.3 Trichinella investigation through indirect ELISA serology	50
4.4 Trichinella investigation through western blot	53
4.5 Possible maximum prevalence of <i>Trichinella</i>	55
4.6 Pig producer questionnaire survey	55
5. DISCUSSIONS AND CONCLUSION	57
5.1 Discussions	57
5.2 Conclusion and recommendations	62
REFERENCES	65
APPENDICES	90
Appendix A	90

LIST OF TABLES

Table	ે ગંમાકાર્ય ક	Page
1.	The use of different methods for the direct demonstration of the	
	Trichinella larvae in pork and horse meat	17
2.	Results of the AB-ELISA of serum samples from pigs of different	17
(regions, breeds and management systems of Nepal	51
3.	ELISA indices and titration observations of serum samples from pigs	
S	of different regions, breeds and management systems of Nepal that	
5	were positive and doubtful through AB-ELISA	52
4.	The reproducibility test of the Trichinella of control sera used for AB-	
	ELISA	53
5.	Status of pig farms with hygienic measures for Trichinella control in	
	Nepal	56
	AI UNIVER

LIST OF FIGURES

Figure Alling	Page
1. Diagram showing the direct life cycle of <i>Trichinella</i>	10
2. Map of Nepal (study areas are marked)	36
3. Map of Kathmandu valley showing the twelve butcheries sites	
where samples were collected	38
4. Microscopic illustrations of <i>Trichinella</i> spp. larvae in meat samples	
by different techniques	42
5. Western blot analyses of sera from pigs that were positive and	
doubtful through AB-ELISA	54

ABBREVIATIONS AND SYMBOLS

	AB	Antibody
	ABPSD	Agri-Business Promotion and Statistics Division
	ABTS	2, 2'-azino-his-(3-ethylbenzothiazoline sulfonate)
	ACP	Acid phosphatase
	ADA	Adenosine deaminase
	ALAT	Alanine aminotransferase
	ALDO	Aldolase
	BfR	Bundesinstitut für Risikobewertung
	bp	Base pair
	CBS	Central Bureau of Statistics
	CDR	Central Development Region
	CFT	Compliment Fixation Test
	CI	Confidence Interval
	cm	Centimetre
	CV	Coefficient of variation
	DNA	Deoxyribonucleic acid
	EEC	European Economic Community
	EFSA	European Food Safety Authority
S .	ELISA	Enzyme Linked Immunosorbent Assay
60	ESINSU	Excretory Secretory
6	EST	Esterase
CO	esyright	Expansion segment five SMAL UNIVERSITY
Δ	et al.	Et alia (and others)
	EU	European Union
	FAO	Food and Agricultural Organization
	FHR	Food Hygiene Regulation

a	Gram
g	
GDP	Gross Domestic Product
GLDH	Glutamate dehydogenase
GOT	Glutamic oxalacetic transaminase
GPD	Glycerol 3-phosphate dehydrogenase
HAT	Haemagglution Test
ICT	International Commission on Trichinellosis
IFAT	Immunofluorescence Antibody Test
IgG	Immunoglobulin G
i.e.	Id est (that is)
IHA	Indirect Haemagglutination Test
IIFT	Indirect Immunofluorescent Test
km	Kilometre
kDa	Kilodalton
LDH	Lactate dehydrogenase
lpg	Larva per gram
ME	Malic enzyme
ml	Millilitre
mm	Millimetre
Mt	Metric Ton
NE	Netto extinction
A NPC 11 S 1	National Planning Commission
OD	Optical density
Cope/right [®]	Office International des Epizooties
PBS	Phosphate buffer saline
PBST	Phosphate buffer saline-tween 20
PCR	Polymerase Chain Reaction
PGD	Phosphogluconate dehydrogenase

PGM	Phosphoglucomutase
RAPD	Random amplified polymorphic DNA
RFLP	Restriction fragment length polymorphism
RIA	Radioimmunoassay
RNA	Ribonucleic acid
SANCO	Letter code for Health and Consumer Protection of European
	Commission
SCVPH	Scientific Committee on Veterinary Measures Relating to
	Public Health
SD	Standard deviation
Se	Sensitivity
SOD	Superoxide dismutase
Sp	Specificity
spp.	Species
SPSS	Statistical Package for Social Sciences
sq.	Square
SSCP	Single strand conformational polymorphism
Т.	Trichinella
TLDP	Third Livestock Development Project
TPI	Triose phosphate isomerase
TsR1	Trichinella spiralis resistance 1
UN-OHRLLS	United Nations office of high representatives for the least
	developed countries, landlocked developing countries and
Copyright	small islands developing states al UNIVERSITY
US\$	United States Dollars
WHO	World Health Organization
%	Percentage
β	Beta
