ACKNOWLEDGEMENTS

The author expresses his profound gratitude and greatly indebted to his advisor, Dr. Jaron Jakmunee for his invaluable guidance, kind supervision, continual encouragement and assistance throughout this research work. The author is sincerely grateful to Prof. Dr. Kate Grudpan, Dr. Somchai Lapanantnoppakhun and Dr. Supaporn Kradtap Hartwell, Department of Chemistry, Faculty of Science, Chiang Mai University for their kind suggestions.

The author would like to acknowledge the Center for Innovation in Chemistry: the Postgraduate Education and Research Program in Chemistry (PERCH-CIC) for granting his full scholarship throughout the study. The author thanks the Department of Chemistry, Faculty of Science, Chiang Mai University for their supports.

Finally, much appreciation is specially expressed to his family, especially Mr. Boonriaung and Mrs. Sawanee Bunpeng for their everlasting love, care and encouragement. The sincere thanks extend to all his friends at Flow Based Analysis Group for their suggestions and assistances.

Pipoon Bunpeng
