## ACKNOWLEDGEMENTS

I would like to express my sincere gratitude to my supervisor, Assist. Prof. Dr. Teraboon Pojanagaroon my advisor for his supervision, guidance, continual encouragement and helpful suggestions throughout this research work. I would like to thank Associate Professor Dr. Saisunee Liawruangrath my co-advisors for her kindness advice, helpful suggestions and comments to complete this work. I also would like to thank Mr. Senee Kruanetr, Mr. Jirayu Makchit, Miss Wilaiwan Phakthong and Alpha Flow Research Group for his helpful guidance and kindness advice.

I wish to express my thanks to “Center for Innovation in Chemistry: Postgraduate Education and Research Program in Chemistry Higher Education Development Project, Ministry of Education (PERCH-CIC)” for supplying a scholarship which enabled this work to be carried out. I also thank to the Graduate School of Chiang Mai University and the Faculty of Science, Chiang Mai University for their partial funding for presenting part of my work in national and international conferences. Thanks are also due to the Department of Chemistry, Faculty of Science Chiang Mai University for providing all laboratory facilities.

I would like to thank all my friends in Chiang Mai University for their lovely and care. I also thank all friends whose names are not listed here, and those who have one way or another contributed to the success of this work.

Finally, I would like to express my deepest gratitude to my parents and my brother for their tender love, continuous care and endless encouragement that enabled me to carry out this research work successfully.

Arunee Suratpipit
