ACKNOWLEDGENTS

The complete of my thesis work will not success in the case without helping from many people, whom I would like to give my sincere thanks and appreciate;

Special thanks are giving to my supervisor, Asst. Prof. Dr. Somporn Chantara, for her kind supervision, invaluable guidance, suggests knowledge, constant inspiration and correction of problem throughout this study. Thanks are also giving to Dr. Yuthsak Vaneesorn for his valuable time as the examination chairperson of this thesis. I also deeply thanks to Dr. Pitchaya Mungkornasawakul who is a member of an examination board.

Gratefully thanks to the Center for Innovation in Chemistry: Postgraduate Education and Research Program in Chemistry, PERCH-CIC for the financially support and also to Chemistry Department, Faculty of Science, Chiang Mai University for instrument support along this study.

Finally, I give big thanks to my parents who are gives strong inspiration, support and always love me, all my friends in the Environmental Chemistry Research Laboratory whom gave many help and suggestions.
