## ACKNOWLEDGEMENTS

First of all, I would like to express my deepest gratitude and sincere appreciation to the thesis advisor, Assistant Professor Dr. Sirirat Chancharunee, for her moral support, advice, excellent guidance, valuable suggestions and encouragement throughout this study. This thesis would not have been accomplished without her gracious assistance.

I wish to extend my special thanks to Dr. Apiwat Baramee (Department of Chemistry, Faculty of Science, Chiang Mai University) and Associated Professor Dr. Duang Buddhasukh (Department of Chemistry, Faculty of Science, Maejo University) for serving on my graduate advisory committee and helping me through the difficulties.

My thanks are extended to the Department of Chemistry, Faculty of Science, Chiang Mai University for kindly providing me with the laboratory and library facilities which have made this study possible. I am grateful to all staff members of Dr. Sirirat's laboratory for their kindness, assistance and friendship.

Finally, I would like to express my deepest gratitude to my family for their infinite love, encouragements and understanding throughout the study.
