ACKNOWLEDGEMENTS

The complete of my thesis work will not success in the case without helping from many people, whom I would like to give my sincere thanks and appreciate;

Special thanks are giving to my supervisor, Assist. Prof. Dr. Somporn Chantara, for her kind supervision, invaluable guidance, provided knowledge, constant inspiration and solving of problems throughout this study. I also deeply thank to Dr. Sarawut Thepanondh Department of environmental science, Faculty of science, Kasetsart University for his valuable time as the examination chairperson of this thesis. Thank are also giving to Dr. Urai Tengjaroenkul who is member of an examination board.

Thanks to Mrs. Ing-on Chaisri and Mrs. Dujduan Sangboon for their helps and guidance in the lab work. I also thank Ms. Nattaporn Chirasathaworn and Mr. Nawarut Chunsuk for their guidance and training of using ion chromatograph.

Finally, I give big thanks to my parents who give strong inspiration, support and always love me, all my friends in the Environmental Chemistry Research Laboratory (ECRL) whom gave many helps and suggestion.
