## ACKNOWLEDGEMENTS

This work was carried out at the Department of Biotechnology, Chiang Mai University, and it was one of the studies of the Graduate School Programme of Biotechnology. I would like to express my sincere thank to Asst. Prof. Supot Boonrang for his supports my thesis and good advice, without his support, suggestion, and correction, this thesis must not be completed

I would like to thank Dr. Suphawat Sinsuwongwat, my advisor at Biotechnology Department, Faculty of Agro-Industry, Chiang Mai University, for his kindness, valuable suggestion and encouragement throughout this research.

I would like to extend the appreciation and gratitude to the examining committee member, Asst. Prof. Dr Piyanuch Niamsup at the Department of Biology, Faculty of Science, Maejo University and Asst. Prof Dr. Sasithon Wongroung, for their significant guidance and sacrifice time to look into this manuscript.

Thank for all the other people in the Department Biotechnology, Faculty of Agro-Industry, especially in the molecular lab, for the pleasant atmosphere. Special thanks for Nuchira Yasanga, Yuwathida Thepyot, Arthitaya Kaweeai, Nunnapat Manonun, Sathian Boonkum, Pongsakorn Sakayapinan and Noppadol Songkome for all their help.

Finally, special thank for my family who encourage and provide me everything essential for my study.

Janejira Chaiyana
