ACKNOWLEDGEMENT

I would like to express my profound appreciation and gratitude to my adviser, Dr. Suphawat Sinsuwongwat, for his kindness to give me an opportunity for the Master's degree education, invaluable advises, guidance of this research work, and help on the manuscript. I would like to thank Assist. Prof. Supot Boonrang my coadviser for capital support and good suggestion.

I would like to thank also all lecturers in the Department of Biotechnology, Faculty of Agro-Industry for their supports, comments and kind understanding.

I would like to thank all the members in the Department of Biotechnology, Chiang Mai University, for their helps and friendship.

Finally I would like to thank My parents for morale and support. I'm in debated to them for their kindness and care. This thesis is dedicated to all of them.
