ACKNOWLEDGEMENTS

The success of this dissertation would not have been possible without assistance and support from several persons who have played a part to my dissertation and alongside journey in my Ph.D Program. Many individuals contributed their time and effort to help me complete my study. I would like to take this opportunity to express my appreciation to these splendid persons. I would like to express my deepest appreciation to Assist. Prof. Dr. Jarassri Yenbut, my academic advisor and the chair of my dissertation advisory committee for giving me guidance, warmth, and encouragement throughout the period of my Ph.D work. My deepest gratitude is extended to the committee members, Assoc. Prof. Dr. Ratanawadee Chontawan, Assist. Prof. Dr. Pratum Soivong, and Assoc. Prof. Capt. Dr. Jayanton Patumanond, M.D. for scholarly assistance and guidance.

I am thankful to Assist. Prof. Dr. Wanida Sanasuttipun, Assist. Prof. Dr. Sauwamas Thuennadee, Assoc. Prof. Dr. Sujitra Tiansawad, Lec. Nunta Leoviriyakit, and Assoc. Prof. Yupada Pongprot, M.D. for validating the research instruments in this study. I am also profoundly grateful to Emeritus Professor Dr. Wichit Srisuphan for her kindness and continuing encouragement throughout my Ph.D. program. My special recognition goes to Assist. Prof. Dr. Usanee Jintrawet and Assist. Prof. Dr. Acharaporn Sripusanapan for their kindness and helpful suggestions.

I would like to acknowledge and sincerely thank the ninety-five mothers of toddlers with CHD who willing participated in this study. Further, I would like to thank the nursing personnel working at the pediatric cardiology clinic, Maharaj Nakorn

Chiang Mai Hospital, Chiang Mai and Buddhachinaraj Hospital, Phitsanulok for the cooperation. My appreciation is also extended to Ms. Roongphetch Homsuwon for the assistance and facilitation.

I would like to acknowledge the Faculty of Medicine, Chiang Mai University for allowing me the time to study in this program and providing partial financial support for my study. I also wish to express my gratitude to Thailand Nursing Council for providing partial financial support for this dissertation.

My heartfelt thanks to my friends for their support and experiences they shared along with me. I also wish to express my special thank to Assist. Prof. Wjit Chaowanklang for always providing a secure foundation of warmth, support and encouragement. Finally, a special appreciation is extended to my beloved parents for their unending and unconditional love.
