ACKNOWLEDGEMENT

Many people have contributed to the completion of this Independent Study. First of all, Great appreciation and special thanks are given to PTT Exploration and Production Public Co., Ltd. (PTTEP) to give me a chance to receive a scholarship for graduate in the Master's degree of Petroleum Geosciences Programme and make this Independent Study. My deepest gratitude is expressed to Assist. Prof. Dr. Nutthawut Wonganan and Mr. Yutthorn Gonecome for suggestion on this topic and close supervision until this report is succeeded. Sincere appreciation is expressed to Assist. Prof. Dr. Wutti Uttamo and Dr. Boontarika Srithai for correcting my English writing. Special thanks to Mr. Apichat choomkong for the climate supporting data which fulfill this report completely. Many thanks to Miss Kasinee Suyacom and many people in Arthit Asset for providing advices and gratifying assistances during doing this report at PTTEP office.

My appreciation and gratefulness are given to all lecturers in Petroleum Geosciences course and the teachers in Geological Sciences Department at Chiang Mai University for the precious knowledge and experiences in geology and petroleum geology.

Finally, I would like to be thankful for my mother and family for the all encouragements during the whole period of this study.
