ACKNOWLEDGEMENTS

I am deeply indebted to my thesis supervisors Assoc. Prof. Dr. Siriporn Okonogi and Asst. Prof. Dr. Sombat Chowwanapoonpohn, Department of Pharmaceutical Science, Faculty of Pharmacy, Chiang Mai University, Thailand, Prof. Dr. Maitree Suttajit, Department of Chemistry, School of Science and Technology, Naresuan University, Thailand and Prof. Dr. Fumio Ikegami, Center for Environment, Health and Field Sciences, Chiba University, Japan for their concern, encouragement and valuable advice throughout my period of study.

I am very grateful to Dr. Takuya Kumamoto, Faculty of Pharmaceutical Sciences, Chiba University, Japan and Dr. Sumino Megumi, Center for Environment, Health and Field Sciences, Chiba University, Japan for their encouragement in isolation and purification techniques, including structure identification knowledge.

I would like to thank the thesis committee for their constructive suggestions and critical review for this thesis.

I would like to thank the Thailand Research Fund, Royal Golden Jubilee Scholarship for granting my partial financial support to conduct this research.

Finally, I wish to express my infinite gratitude to my parents and my friends for their love, understanding and encouragement.

Suganya Tachakittirungrod
