ACKNOWLEDGEMENTS

I wish to express my sincere gratitude and profound appreciation to Assoc. Prof. Dr. Pongruk Sribanditmongkol, thesis advisor, for his professional guidance, kind supervision, inspiration and encouragement. Without his advice, support and understanding, this thesis would not have been accomplished.

I would like to extend special thanks to my co-advisors, Miss Anongphan Junkuy, Mrs. Suparat Thammakitak and Asst. Prof. Dr. Sunanta Wangkan for their guidance, helpful suggestions and valuable advice, and Asst. Prof. Dr. Apinan Aranratana for his permission to use samples in this study.

I also wish to extend my sincere thanks to Mr. Pisan Kitsawatpaiboon, Department of Chemistry, Faculty of Science, Chiang Mai University, for his kind and helpful suggestion on GC-MS, and Miss Nongkarn Pongtrakul at the Department of Biology, Faculty of Science, Maejo University for her help in using GC-MS for the preliminary study.

Thanks to all my friends and the staff at the Department of Forensic Medicine, Faculty of Medicine, Chiang Mai University, for their help and encouragement.

Finally, I express profound gratitude to my parents and family for their support, understanding and encouragement, which inspired me to complete this graduate study.

Monnatee Pengwong
