#### ACKNOWLEDGEMENTS

I would like to express my sincere gratitude to my supervisor, Associate Professor Dr. Saisunee Liawruangrath for her kindness advice, continual encouragement and helpful suggestions throughout this research work. I would like to thank Assist. Prof. Dr. Teraboon Pojanagaroon my co-supervisor, for his invaluable discussions and comments to complete this work.

I wish to express my thanks to "Center of Excellence for Innovation in Chemistry: Postgraduate Education and Research Program in Chemistry Higher Education Development Project, Ministry of Education (PERCH-CIC)" for supplying a scholarship which enabled this work to be carried out. I also thank the Graduate School of Chiang Mai University and the Faculty of Science, Chiang Mai University for their partial funding for presenting part of my work in national conferences. Thanks are also due to the Department of Chemistry, Faculty of Science Chiang Mai University for providing all laboratory facilities.

Special thanks are also due to my lovely friends; Mr. Senee Kruanetr and Miss Wilaiwan Phakthong and all members in the Alpha Flow Research Group for their care and help.

I would like to thank all my friends in Chiang Mai University for their encouragement. I also thank all friends whose names are not listed here, and those who have one way or another contributed to the success of this work.

Finally and most of all, I would like to express my deepest gratitude to my parents for their tender love, care and endless encouragement that enabled me to carry out this research work successfully.

iii

Yanisa Thepchuay
