ACKNOWLEDGEMENTS

The author wishes to express her sincere appreciation and thanks to her Chairperson, Assoc.Prof. Danuwat Peng-ont and her thesis advisor, Asst.Prof. Dr. Chaiwat Jatisatienr for their guidance and advice towards the completion of this study. The author would also like to extend her sincere appreciation and thanks to Assoc.Prof. Dr. Araya Jatisatienr who had provided valuable suggestions and comment as a former advisor and for serving as the thesis examination committee. The author would also like to thank to Asst.Prof. Dr. Uraporn Sardsud and Dr. Wasu Pathom-aree for serving as the co-advisor thesis examination committee. Special thanks are due to Asst.Prof. Dr. Piyanuch Niamsup who served as member of her thesis advisory committee and provided valuable comments and suggestions.

The author is also grateful to Mae Hia Agricultural Research Station and Training Center, Chiang Mai University for allowing her to conduct the experiments there, and to all the staff members of Biology Department especially members of Plant Natural Product Unit for their help and assistance during the period of this study.

Finally, the author wishes to express her deep sense of gratitude to her parents for their support and encouragement throughout her course of study at the Chiang Mai university (CMU).
