ACKNOWLEDGEMENTS

I gratefully acknowledge Dr. Ampin Kuntiya, my advisor, for all valuable suggestion, supporting and encouragement throughout investigation in this thesis. This thesis would not be accomplished without his assistance and great comment.

I am also pleased to thank Assist. Prof. Dr. Charin Techapun, Lecturer of the Department of Biotechnology, Faculty of Agro-Industry, Chiang Mai University and Dr. Srikanjana Klayraung, Lecturer of the Department of Biology, Faculty of Science, Maejo University, for their valuable advices and suggestion.

My gratitude is also given to all staff members of the Department of Biotechnology, Faculty of Agro-Industry, Chiang Mai University, for their help, support, advice and friendship during my graduate study.

I profoundly thank my parents for their encouragement during my study.

This work was partly supported by The Graduate School of Chiang Mai University.
