## ACKNOWLEDGEMENTS

I would like to express my heartfelt gratitude to my supervisor, Assist. Prof. Dr. Teraboon Pojanagaroon my advisor for his supervision, guidance, continual encouragement and assistance. I would like to thanks Associate Professor Dr. Saisunee Liawruangrath my co-advisor for her helpful recommendations and review to complete this work. I also would like to thank Mr. Senee Kruanetr, Miss Wilaiwan Phakthong, and Alpha Flow Research Group for their guidance for solving flow analysis problems.

I wish to express my thanks to “Center for Innovation in Chemistry: Postgraduate Education and Research Program in Chemistry Higher Education Development Project, Ministry of Education (PERCH-CIC)” for the partial support. I also thank the Graduate School of Chiang Mai University and the Faculty of Science, Chiang Mai University for their partial funding for presenting part of my work in The 34<sup>th</sup> Congress on Science and Technology of Thailand (STT 34) conferences.

I would like to express my deepest gratitude to my parents and grandmother for their tender love, continuous care and encouragement.

Finally, I would like to thank those whose names are not listed here, who have one way or another contributed to the success of this work.
