ACKNOWLEDGEMENTS

I, the author would like to express my sincere gratitude and appreciation to my supervisor, **Assoc.Prof. Dr. Griangsak Chairote**, for his guidance suggestions, encouragement, and for kindly giving me an opportunity to do my graduate study under his supervision.

Special valuable thank for **Asst. Prof. Dr. Hataichanoke Niamsup** for her kindness, invaluable guidance, and for encouraging me to accomplish my professional goals.

My sincere appreciation is also given to **Prof. Dr. Saisamorn Lumyong** for her strong valuable recommend and comments.

I am also grateful to the examining committee, **Asst. Dr. Sirichai Unsrison** and **Asst. Prof. Dr. Lalida Shank**, examining for their valuable time and effort spent on proof-reading of this thesis.

I would like to thank, **Assoc. Prof. Dr. Mika Nomura**, **Prof. Dr. Shideyuki Tajima** and **Prof. Dr. Takeshi Katayama** from the Department of Life science, Faculty of Agriculture, Kagawa University, Japan for their help and for giving me a chance to get a short valuable experience in life and laboratory skills in Japan and for encouraging me to get the Exchange Program for East Asian Young Researchers Scholarship (JSPS); 2009.

Acknowledgment is also extended to **the Frontier Research Network for the Ph.D. Program for Thai Doctoral Degree from the Office of the Higher Education Commission**, Thailand for fully financial support during my study. I am thankful to Postgraduate Education and Research Program in Chemistry; Center for Innovation in Chemistry (PERCH-CIC), Thailand and Pibulsongkram Rachabhut University, Pitsanulok, Thailand, for their partial financial support.

Finally, I cordially thank my **father, mother and sister** for giving me love and support. I would like to accredit my success to them.
