	PAGE
ACKNOWLEDGEMENT	iii
ENGLISH ABSTRACT	v
THAI ABSTRACT	vii
TABLE OF CONTENTS	xi
LIST OF TABLES	xiv
LIST OF FIGURES	xv
CHAPTER 1 INTRODUCTION	1
Background and the Significance of the Problem	1
Objectives of the Research	9
The Scopes of the Research	10
Definitions of Terms	10
Benefits Derived from the Research	13
CHAPTER 2 REVIEW OF LITERATURE	16
Part 1 The Content-areas of Mathematics	16
Part 2 The Mathematical Process Skills	25
Part 3 The Knowledge Management	39
Part 4 The Action Research	50
Part 5 The Personal Development	54
Part 6 The Instructional Competency in Teaching Mathematics	60
Part 7 The Related Literature	66
CHAPTER 3 METHODOLOGY	76
Step 1 (the step of developing the conceptual framework to develop the instructional competency promoting mathematical process skills)	76

	PAGE
Step 2 (the step to design the instructional competency development that promotes mathematical process skills)	78
Step 3 (implement the model for developing instructional competency promoting mathematical process skills)	78
Step 4 (step of evaluation and improvement and development of the model on teaching competency development that promotes mathematical process skills)	100
Target Groups of the Research	102
Tools Used in the Research	102
Creation of Research Tools and Improvement for their Quality	103
Data Collection	110
Data Analysis	112
Target of Success in the Development of the Instructional Competency Utilized by the Created Model	114
CHAPTER 4 RESULTS OF DATA ANALYSES	115
Part One: The Results of Creating a Model for Developing Instructional Competency Promoting Prathom Suksa 6 Students' Mathematical Process Skills through Knowledge Management and Action Research	115
Part Two: The Results of Studying Instructional Competency that Promotes Mathematical Process Skills of Prathom Suksa 6 Students through Knowledge Management and Action Research	119
Part Three: The Study Results on the Target Group Teachers' Opinions towards the Development Model on Instructional Competency that Promotes the Mathematical Process Skills of Prathom Suksa 6 Students through Knowledge Management and Action Research.	129

	PAGE
CHAPTER 5 CONCLUSIONS, DISCUSSIONS AND SUGGESTIONS	133
Conclusions	134
Discussions	141
Suggestions	154
BIBLIOGRAPHY	158
APPENDICES	
APPENDIX A List of the Experts	166
APPENDIX B Standards, Indicators, and Criteria for the Instructional Competency Promoting the Mathematical Process Skills	167
APPENDIX C Evaluation Criteria in the Indicator Level and Standard Level	180
APPENDIX D Research Tools	183
APPENDIX E Result of data analysis	198
APPENDIX F The Result of implementation of Teachers and Students	202
CURRICULUM VITAE	223

LIST OF TABLES

TABLE		PAGE
1	Analysis of the Tools Used for Data Collection in the Research	102
2	Analysis Methods to Research Data Classified According to the Objectives and Characteristics of Research Data	113
3	Comparison of the Results of Development of Instructional Competency that Promotes Mathematical Process Skills Before and After the Model Development, the Identification of Targets, and the Model Trial	120
4	The Instructional Competency Promoting Mathematical Process Skills of Target Group Teachers after the Model Development/Trial The number of teachers was classified in quality levels	124

LIST OF FIGURES

FIGURE		PAGE
1	Knowledge Spiral	44
2	Learning Cycle	45
3	The Knowledge Window, the Wisdom Door	47
4	Iceberg	48
5	The Spiral Ladder of Action Research (Kurt Lewin)	51
6	Definition of competency which create behavior, results of work, and the organizational results	61
7	The Research Conceptual Framework	77
8	The Model for Developing Instructional Competency Promoting Mathematical Process Skills	79
9	Summary of Steps in Identifying Targets of Success in Learning and Teaching Model Development	83
10	Summary of Order of Activities in Checking the Instructional Competency that Promotes Mathematical Process Skills before the Model Development	85
11	Summary of Activities on Planning for the Development of Instructional Competency that Promotes Mathematical Process Skills	88
12	Summary of Activity to Develop the Instructional Competency that Promotes Mathematical Process Skills	95
13	Summary of Activities on Observing, Checking, and Reflecting on the Development of Instructional Competency Promoting Mathematical Process Skills.	97
14	Summary of Methods Used to Evaluate the Instructional Competency After the Development	99
