## ACKNOWLEDGEMENT

First and foremost thanks are due to my major advisor, Associate Professor Dr. Kom Sukontason, Department of Parasitology, Faculty of Medicine, Chiang Mai University, without whose guidance and encouragement this thesis would not be what it is today. His kindness, guidance, valuable suggestions and constant encouragement helped me in all aspects of my research and provided me with the opportunity to complete this thesis.

I also wish to express my sincere appreciation and gratitude to my co-advisors, Associate Professor Dr. Kabkaew L. Sukontason and Associate Professor Dr. Udom Chaithong, Department of Parasitology, Faculty of Medicine, Chiang Mai University, Professor Jimmy K. Olson, Department of Entomology, Texas A&M University, USA for their kindness, valuable guidance, meaningful criticism and help during my doctoral research.

In addition, I wish to thank Assistant Professor Dr. Urai Chaisri, Department of Tropical Pathology, Faculty of Tropical Medicine, Mahidol University for her advice on interpreting the transmission electron microscopy results and for her willingness to discuss ideas on the TEM images.

I would like to thank Dr. Wannapa Suwonkerd, Office of Disease Prevention and Control, Department of Disease Control, Ministry of Public Health, Chiang Mai, for serving as my external examiner and kindly being my comprehensive evaluator.

I would like to acknowledge Mr. Somsak Piangjai, Mr. Surasak Turasit and staff of the Department of Parasitology, Faculty of Medicine, Chiang Mai University who helped with their valuable guidance and constant encouragement throughout my studies. I am also grateful to Mrs. Budsabong Kuntalue, Electron Microscopy Research and Service Centre, Faculty of Science, Chiang Mai University for assistance in the electron microscopic studies.

I want to acknowledge my scholarship from the Royal Golden Jubilee Ph.D. Program (Grant No. PHD/0114/2547) for financially supporting my graduate study at Chiang Mai University.

I am especially grateful to Miss Nuchjarin Sutthiwarotamakul and Dr. Nophawan Bunchu for their kindness, meaningful suggestions and constant encouragement throughout this doctoral study. I also thank my best friends, Mr. Pathamet Khositharattanakool, Miss Ratchadawan Ngoen-klan, Miss Puckawadee Somwang and my other friends in the Department of Parasitology, Chiang Mai University, for helping me get through the difficult time, and for all the emotional support, camaraderie, entertainment, and care they provided.

Finally, I wish to express my deepest gratitude to my beloved parents and family for their encouragement and moral support throughout my doctoral study.

Worachote Boonsriwong
