ACKNOWLEDGEMENTS

First of all, I would like to express my sincere thanks to the postgraduate studies in the International Animal Health Department (Freie Universität Berlin - FUB) and the Veterinary Public Health Center for Asia Pacific (Chiang Mai University - CMU), for their excellent Joint Masters Program in Veterinary Public Health, from 2007 – 2009, which is particularly beneficial to Vietnam and the Asia-Pacific region in general. I am personally grateful to the Thai Royal Government, which granted me a scholarship for this master's course.

I address my deepest thanks to Prof. Dr. Karl-Hans Zessin, the program director and Head of Postgraduate Studies in the International Animal Health Department (FUB); Dr. Maximilian Baumann, the program coordinator (FUB); Assoc. Prof. Dr. Lertrak Srikitjakarn, Dean of Veterinary Medicine Faculty (CMU) and the program coordinator; Dr. Khwanchai Kreausukon, former Director of Veterinary Public Health Center for Asia Pacific (VPHCAP, CMU); Asst. Prof. Dr. Rutch Khattiya, former Director of VPHCAP and Dr. Prapas Patchanee, Director of VPHCAP, for their successful organization of the course.

My special thanks go to my academic supervisors, Prof. Dr. Reinhard Fries (FUB), and Assoc. Prof. Dr. Lertrak Srikitjakarn (CMU), who have given me orientation and scientific research methodology in my thesis project work.

I also send many thanks to my country supervisor, Dr. To Long Thanh, Vice Director of the National Center for Veterinary Diagnostics (Vietnam), for his kind advice and information on the field research.

I would like to express my deep gratitude to the Department of Animal Health of Vietnam (DAH), the National Center for Veterinary Hygiene and Inspection No.1 (NCVHI 1), the Hanoi Sub-Department of Animal Health (Hanoi Sub-DAH) for facilitating me in my field research, especially Dr. Hoang Van Nam, Deputy Director General of DAH; Dr. Bui Thi Phuong Hoa, Director of NCVHI 1; Dr. Chu Van Tuat,

Vice Director of NCVHI 1; Dr. To Lien Thu, Head of the Microbiology Section of NCVHI 1 and Dr. Khieu Thi Kim Anh, Hanoi Sub-DAH.

Last but not least, my studies would not be completed without the encouragement and sharing from my parents, my wife Dinh Thi Phuong Anh, my lovely children Pham Duc Bao and Pham Phuong Dzung. Therefore, I would like to dedicate my proudest achievements to all of them.

Pham Thanh Long

The seal of Chiang Mai University is a large, faint watermark in the background. It is a circular emblem featuring an elephant in the center, facing left. Above the elephant's head is a stylized flame or torch. The text "CHIANG MAI UNIVERSITY 1964" is written in a circular path around the elephant. There are also Thai script characters at the top and bottom of the seal.
