| List of Tables  | xiii        |
| List of Figures   | xvi         |
| Chapter 1    Introduction                               | 1           |
| 1.1 Rational Backgrounds                                | 1           |
| 1.2 Literature review                                   | 12          |
| 1.3 Objectives of this study                            | 21          |
| 1.4 Research questions and hypotheses                   | 22          |
| 1.5 Place of study and Data collection                  | 23          |
| Chapter 2    Research designs and methods               | 25          |
| 2.1 Conceptual Framework                                | 25          |
| 2.2 Econometrics Framework                              | 27          |
| 2.2.1 Unit root test                                    | 27          |
| 2.2.2 Seasonal unit root test                           | 30          |
| 2.2.3 Cointegration analysis and error correction model | 33          |
| 2.2.4 Volatility analysis                               | 34          |
| 2.2.4.1 Conditional Mean Model                          | 34          |
| 2.2.4.2 Conditional Volatility Model                    | 36          |

|           |  |    |
|-----------|--|----|
| Chapter 3 | Modeling and Analysis of Demand by Malaysian and Japanese Tourists to Thailand | 42 |
|           | 3.1 Rational backgrounds and hypotheses of the research                        | 45 |
|           | 3.1.1 Rational backgrounds   | 45 |
|           | 3.1.2 Research questions and hypotheses  | 45 |
|           | 3.2 Research methodology and literature review                                 | 46 |
|           | 3.2.1 Conceptual Framework   | 46 |
|           | 3.2.2 Econometrics Framework   | 49 |
|           | 3.2.3 Literature review  | 53 |
|           | 3.3 Objectives of this study   | 58 |
|           | 3.4 Data Collection  | 59 |
|           | 3.5 Unit root tests  | 59 |
|           | 3.6 Seasonal unit roots test   | 63 |
|           | 3.7 Modeling the Malaysian and Japanese tourist demand                         | 69 |
|           | 3.8 Empirical results of Cointegration and Error Correction Model              | 71 |
|           | 3.9 Conclusion   | 83 |
| Chapter 4 | Value at Risk of International Tourist Arrivals to Thailand                    | 87 |
|           | 4.1 Rational backgrounds and research question                                 | 89 |
|           | 4.1.1 Rational backgrounds   | 89 |
|           | 4.1.2 Research question  | 90 |
|           | 4.2 Research methodology and literature review                                 | 90 |
|           | 4.2.1 Unit root tests  | 90 |
|           | 4.2.2 Volatility analysis  | 91 |

|  |     |

## LIST OF TABLES

| Table |   | Page |
|-------|---|------|
| 1.1   | Number of international tourism arrivals to Thailand and length of stay 2005 – 2006 | 2    |
| 1.2   | Tourism receipts from international tourist arrivals: January – December 2006       | 8    |
| 1.3   | International tourist arrivals to Thailand (January – December)                     | 10   |
| 1.4   | Japanese outbound travel by purpose of visit and leading destination                | 12   |
| 3.1   | the critical values at the 5% significant level for HEGY test                       | 51   |
| 3.2   | the result of unit root tests   | 61   |
| 3.3   | The coefficient of $y_t$ with intercept for Malaysian tourists market               | 64   |
| 3.4   | The coefficient of $y_t$ with intercept for Japanese tourists market                | 66   |
| 3.5   | The coefficient of $y_t$ with intercept for UK tourists market                      | 67   |
| 3.6   | The coefficient of $y_t$ with intercept for American tourists market                | 68   |
| 3.7   | Trace tests for cointegrating vectors of Malaysian tourists                         | 72   |

|      |  |     |
|------|--|-----|
| 3.8  | Maximum Eigenvalue tests for Malaysian tourists                    | 72  |
| 3.9  | Trace tests for cointegrating vectors of Japanese tourists         | 73  |
| 3.10 | Maximum Eigenvalue tests for Japanese tourists                     | 74  |
| 3.11 | Trace tests for cointegrating vectors of UK tourists               | 75  |
| 3.12 | Maximum Eigenvalue tests for UK tourists                           | 75  |
| 3.13 | Trace tests for cointegrating vectors of American tourists         | 76  |
| 3.14 | Maximum Eigenvalue tests for American tourists                     | 76  |
| 3.15 | Error correction model   | 78  |
| 3.16 | Long-run coefficients for tourism demand (Cointegrating vector 1)  | 80  |
| 3.17 | Long-run coefficients for tourism demand (Cointegrating vector 2)  | 81  |
| 4.1  | Number of international tourist arrivals to Thailand 1997-2006     | 89  |
| 4.2  | the result of unit root tests                                      | 99  |
| 4.3  | Accumulation of the number of tourist arrivals to Thailand         | 101 |
| 4.4  | Descriptive Statistics (monthly arrivals)                          | 101 |
| 4.5  | Descriptive Statistics for Growth Rate (monthly arrivals)          | 102 |
| 4.6  | SARMA model for growth rates in total monthly tourist arrivals     | 107 |
| 4.7  | SARMA model for growth rates in monthly Malaysian tourist arrivals | 108 |

|      |  |     |
|------|--|-----|
| 4.8  | SARMA model for growth rates in monthly Japanese<br>tourist arrivals | 108 |
| 4.9  | SARMA model for growth rates in monthly UK tourist<br>arrivals       | 108 |
| 4.10 | SARMA model for growth rates in monthly American<br>tourist arrivals | 109 |
| 4.11 | Estimated GARCH model  | 115 |
| 4.12 | Estimated GJR model  | 116 |
| 5.1  | the result of unit root tests  | 132 |
| 5.2  | Accumulation of the number of tourist arrivals to<br>Thailand        | 134 |
| 5.3  | Descriptive Statistics (monthly arrivals)                            | 135 |
| 5.4  | Descriptive Statistics for Growth Rate (monthly arrivals)            | 136 |
| 5.5  | ARMA model for growth rates in monthly Malaysian<br>tourist arrivals | 141 |
| 5.6  | ARMA model for growth rates in monthly Japanese<br>tourist arrivals  | 142 |
| 5.7  | SARMA model for growth rates in monthly UK tourist<br>arrivals       | 142 |
| 5.8  | SARMA model for growth rates in monthly American<br>tourist arrivals | 143 |
| 5.9  | Estimated GARCHX model   | 149 |
| 5.10 | Estimated GJR-X model  | 151 |
| 5.11 | The forecasting results  | 152 |

## LIST OF FIGURES

| <b>Figure</b> |   | <b>Page</b> |
|---------------|---|-------------|
| 4.1           | Total monthly international tourist arrivals from 1976-2009   | 102         |
| 4.2           | Monthly Malaysian tourist arrivals from 1979-2009             | 103         |
| 4.3           | Monthly Japanese tourist arrivals from 1979-2009              | 103         |
| 4.4           | Monthly UK tourist arrivals from 1979-2009                    | 104         |
| 4.5           | Monthly American tourist arrivals from 1979-2009              | 104         |
| 4.6           | Total monthly tourist arrival growth rates from 1976-2009     | 105         |
| 4.7           | Monthly Malaysian tourist arrival growth rates from 1979-2009 | 105         |
| 4.8           | Monthly Japanese tourist arrival growth rates from 1979-2009  | 106         |
| 4.9           | Monthly UK tourist arrival growth rates from 1979-2009        | 106         |
| 4.10          | Monthly American tourist arrival growth rates from 1979-2009  | 107         |
| 5.1           | Monthly Malaysian tourist arrivals from 1985-2009             | 137         |
| 5.2           | Monthly Japanese tourist arrivals from 1985-2009              | 137         |
| 5.3           | Monthly UK tourist arrivals from 1985-2009                    | 138         |
| 5.4           | Monthly American tourist arrivals from 1985-2009              | 138         |
| 5.5           | Monthly Malaysian tourist arrival growth rates from 1985-2009 | 139         |
| 5.6           | Monthly Japanese tourist arrival growth rates from 1985-2009  | 139         |
| 5.7           | Monthly UK tourist arrival growth rates from 1985- 2009       | 140         |
| 5.8           | Monthly American tourist arrival growth rates from 1985-2009  | 140         |
