LIST OF TABLES

Table		Page
1	Description of water quality assessed by using diversity index value	28
2	Description of water quality as define by numerical value of BMWP index	29
3	Description of water quality as define by ASPT value	30
4	Description of water quality assessed by using Family Biotic Index	31
5	Classification of water quality assessed by chemical index.	32
6	Pearson's correlation between biological indices and chemical index of Mekong River and its tributaries.	45
7	Water quality assessed by each indices of Mekong River and its tributaries	46
8	BMWP ^{Thai} score value	89
9	Tolerance values of macroinvertebrates for Family Biotic Index	91
10	Surface Water Quality Standards of Thailand	94
11	Abbreviation of macroinvertebrates taxa	97
12	Average value of each physico-chemical parameters in May 2007	100
13	Average value of each physico-chemical parameters in August 2007	101
14	Average value of each physico-chemical parameters in January 2008	102

15	Average value of each physico-chemical parameters in April 2008	103
16	Number of macroinvertebrates individual of Mekong River and tributaries	104

LIST OF FIGURES

Figure		Page
1	Map of Mekong River and its tributaries with 10 study sites	18
2	Mae Kok River; Meuang District, Chiang Rai Province (northern Thailand)	19
3	Hadkrai village; Chiangkhong District, Chiang Rai Province (northern Thailand)	20
4	Hung River; Ta Li District, Loei Province (northeastern Thailand)	21
5	Kaeng Kudku; Chiangkhan District, Loei Province (northeastern Thailand)	21
6	Nam Ngum River; Vientiane Province, central of Lao PDR	22
7	Songkram River; Kham Takla District, Nakhonphanom Province (northeastern Thailand)	23
8	Songkram River Delta; Tha Uthen District, Nakhonphanom Province (northeastern Thailand)	24

9	Kaeng Hin Khan; Chanuman District, Amnatcharoen Province (northeastern Thailand)	25
10	Mae Mun River; Phibunmungsahan District, Ubon Ratchatani Province (northeastern Thailand)	25
11	Khong Chiam; Khong Chiam District, Ubon Ratchatani Province (northeastern Thailand)	26
12	Number of individual and percentage of macroinvertebrates found in Mekong River and its tributaries	35
13	Total numbers of macroinvertebrates taxa in each sampling periods found in Mekong River and its tributaries	36
14	Total numbers of macroinvertebrates taxa at all sampling periods found in each sites of Mekong River and its tributaries	36
15	Total numbers of aquatic insects taxa in each order found in Mekong River and its tributaries	38
16	Total numbers of aquatic insects taxa in each sampling periods found in Mekong River and its tributaries	38
17	Total numbers of freshwater mollusks taxa in each class of Mekong River and its tributaries	39
18	Total numbers of freshwater mollusks taxa in each sampling periods of Mekong River and its tributaries	40

19	Diversity index values (H') in each sampling periods of Mekong River and its tributaries	41
20	BMWP _{Thai} values in each sampling periods of Mekong River and its tributaries	43
21	ASPT values in each sampling periods of Mekong River and its tributaries	43
22	FBI values in each sampling periods of Mekong River and its tributaries	44
23	Air temperatures in each sampling period of the Mekong River and its tributaries	47
24	Water temperatures in each sampling period of the Mekong River and its tributaries	49
25	Turbidity in each sampling period of Mekong River and its tributaries	50
26	Velocity of Mekong River and its tributaries in each sampling period	51
27	Conductivity of the Mekong River and its tributaries in each sampling period	52
28	Concentration of TDS in the Mekong River and its tributaries in each sampling period	53

29	pH of Mekong River and its tributaries in each sampling period	54
30	Alkalinity of Mekong River and its tributaries in each sampling period	55
31	Salinity of Mekong River and its tributaries in each sampling period	57
32	Dissolved oxygen of Mekong River and its tributaries in each sampling period	58
33	Biochemical oxygen demand of Mekong River and its tributaries in each sampling period	59
34	The concentration of nitrate nitrogen of Mekong River and its tributaries in each sampling period	60
35	The concentration of ammonia nitrogen of Mekong River and its tributaries in each sampling period	61
36	The concentration of orthophosphate of Mekong River and its tributaries in each sampling period	62
37	Cluster analysis (UPGMA) base on physicochemical parameters of Mekong River and its tributaries in each sampling period	64
38	The ordination (PCA) base on physico-chemical parameters of Mekong River and its tributaries	65

39	Cluster analysis (UPGMA) base on macroinvertebrates of Mekong River and its tributaries in each sampling period	66
40	The correlation (CCA) between macroinvertebrates (insect orders) and physico-chemical parameters of Mekong River and its tributaries	68
41	The correlation (CCA) base on freshwater mollusk and physico-chemical parameters of Mekong River and its tributaries	68
42	The correlation (CCA) base on freshwater macroinvertebrates and physico-chemical parameters of Mekong River and its tributaries	69
43	The correlation (CCA) between biotic indices and physico- chemical parameters of Mekong River and its tributaries	69
44-1	Aquatic insects in order Ephemeroptera were found in Mekong River and its tributaries	118
44-2	Aquatic insects in order Ephemeroptera were found in Mekong River and its tributaries (continue)	119
45-1	Aquatic insects in order Odonata (suborder Zygoptera) were found in Mekong River and its tributaries	119

45-2	Aquatic insects in order Odonata (suborder Zygoptera) were found in Mekong River and its tributaries (continue)	120
46	Aquatic insects in order Odonata (suborder Anisoptera) were found in Mekong River and its tributaries	120
47	Aquatic insects in order Plecoptera were found in Mekong River and its tributaries	121
48-1	Aquatic insects in order Hemiptera were found in Mekong River and its tributaries	121
48-2	Aquatic insects in order Hemiptera were found in Mekong River and its tributaries (continue)	122
49	Aquatic insects in order Megaloptera were found in Mekong River and its tributaries	123
50-1	Aquatic insects in order Trichoptera were found in Mekong River and its tributaries	123
50-2	Aquatic insects in order Trichoptera were found in Mekong River and its tributaries (continue)	124
51	Aquatic insects in order Lepidoptera were found in Mekong River and its tributaries	125
52-1	Aquatic insects in order Coleoptera were found in Mekong River and its tributaries	125

52-2	Aquatic insects in order Coleoptera were found in Mekong River and its tributaries (continue)	126
53-1	Aquatic insects in order Diptera were found in Mekong River and its tributaries	126
53-2	Aquatic insects in order Diptera were found in Mekong River and its tributaries (continue)	127
54-1	Freshwater mollusks (Gastropods) were found in Mekong River and its tributaries	128
54-2	Freshwater mollusks (Gastropods) were found in Mekong River and its tributaries	129
55-1	Freshwater mollusks (Bivalve) were found in Mekong River and its tributaries	129
55-2	Freshwater mollusks (Bivalve) were found in Mekong River and its tributaries (continue)	130
