ACKNOWLEDGEMENTS

I would like to express my gratitude to my advisor, Prof.Dr. Jiradej Manosroi and my co-advisor, Prof.Dr. Aranya Manosroi for their valuable comments, advices, encouragement and endless support during the course of this study. I am deeply indebted to Mrs. Pranee Chavalitthamrong for being my co-advisor and her suggestions as well as encouragements and help throughout my laboratory work and writing of this dissertation.

I would also like to thank the Graduate School, Chiang Mai University for partial financial support of my thesis. I wish to express my sincere thank to Prof.Dr. Sumitra Thongprasert, Assoc. Prof.Dr. Salika Aritajat and Dr. Pramote Stienrut for being the examining committees of my thesis defense.

My appreciation is also to my close friends, Ms. Mukda Trakrudthong and Mr. Anthony Bennet for their time in editing the draft paper and providing the key messages which have help me to refine the document. For the statistical guidance and arrangement, I would like to thank Dr. Anchalee Jatapai and Ms. Sirima Mongkolsomlit whose gracious assistance was inexpendable. I wish to express my special thank to all of my friends for their encouragement and also to all of those who in their own capacity have contributed to make the completion of this study possible.

I would also like to express my sincere thanks to the staffs at Faculty of Pharmacy and the staffs as well as the graduate students at the Natural Products Research and Development Center (NPRDC), Institute for Science and Technology

Research and Development, Chiang Mai University for their assistances including the laboratory tests and related activities.

Finally, I would like to express my special thanks to my family for their untiring patience, understanding, warmth and love throughout the period of this study.

Sakul Sinchai
