ACKNOWLEDGEMENT

I would like to express my sincere gratitude and deep appreciation to Asst. Prof. Dr. Tawat Taesotikul, my thesis advisor, for his valuable guidance and supervision on research plan, teaching in laboratory techniques and statistical analysis of the results and presentation, advice and encouragement and helpful criticism in the writing of this manuscript, which has enabled me to carry on my graduate work successfully.

I am deeply indebted and grateful to Assoc. Prof. Dr. Duangta Kanjanapothi, for her special efforts, excellent guidance, advice and encouragement and helpful criticism in the writing of this manuscript, which has enabled me to carry on my graduate work successfully. This thesis could not have been successful without her assistance.

I would like to express my grateful and appreciation to Assoc. Prof. Dr. Somdet Srichairatanakool for his help on laboratory technique and guidance.

I am also special thanks to Dr. Doungporn Amornlerdpisan for her advice and teaching on laboratory technique.

I would like to express my sincere thankfulness to Assoc. Prof. Dr. Wibool Ridditid for valuable suggestion and chairperson of examining committee.

The financial supported from the Commission on Higher Education-Thailand Research Fund is gratefully acknowledged.

Thankfulness for help and valuable guidance are extended to staff of the Department of Pharmacology and my entire friends for their kindness help and cooperation along this project.

Finally, I am especially grateful to my family members for their cheerful encouragement, extremely helpful and remarkably supportive.

Uten Jumjai
