ACKNOWLEDGEMENTS

I am very grateful to my supervisor, Assoc. Prof. Dr.Boonsom Liawruangrate for her concern, encouragement and valuable advice throughout my period of study.

I am very grateful to Assoc. Prof. Dr.Saisunee Liawruangrate, Assoc. Prof. Suwanna Vejabhikul and Dr. Apiwat Baramee my co-supervisors for their suggestions and corrections.

I am very grateful to Dr. Theeraphan Machan, School of Science, Mae Fah Luang University, Chiang Rai, the thesis committee, for valuable suggestions and corrections.

I would like to thank Department of Chemistry, Faculty of Science, Maejo University for providing AAS for analysis of metals.

I would like to thank Mr. Banyong Khantawa, Microbiology Section, Central Laboratory, Maharaj Nakorn Chiang Mai Hospital, Chiang Mai, Thailand for kindly providing suggestions in the support microbiology laboratory.

This thesis was financially supported by the Graduate School of Chiang Mai University and the Faculty of Pharmacy, Chiang Mai University. I am also grateful to Mr. Prapart Phoowiang and Mr. Somsak Tajai, for encouragement, generosity and help. I would like to thank Mrs. Nichakan Phoowiag, Miss Jiraporn Chuangbanyat, Miss Sukanya Keawsaard, Miss Duangsuree Sanseera, Mr. Wisanu Thongchai, Mr. Sorachai Khamsan and the Ph. D., the Master and the Senior Project students and the staff of the Faculty of Pharmacy, Chiang Mai University for their assistance.

Finally, I sincerely appreciate to my parents, all my teachers and friends for their love, advice, and encouragement throughout this study. Without all these persons mentioned above, this thesis would not have been developed and completed.

Jureporn Jeanjai
