ACKNOWLEDGEMENTS

I would like to express the graduate and deepest appreciation to Dr. Peraphan Pothacharoen, thesis advisor, Assoc. Prof. Dr. Prachya Kongtawelert and Assoc. Prof. Dr. Siriwan Ongchai, thesis co-advisor, for their precious guidance, unforgettable support, excellent encouragement and contribution which throughout study are worthy of grateful acknowledge.

I would like to thank Prof. Dr. Yong Poovorawan for provide influenza type A H1N1 and embryonated eggs

I also wish to express my great appreciation to Mr. Kanchanok Kodchakorn, Mr. Chatchai Mangkaew, Mr. Akanit Itthiarbha, Ms. Kanyamas Choocheep, Ms. Tanyaluck Phitak, Mr. Teerawut Chanmee, Ms. Nawarat Viriyakhasek, Ms. Orawan Vanajivin, and all my friends for their excellent training and expertise which helped me so much to make this work possible.

I also would like to acknowledge the Department of Biochemistry, Faculty of Medicine, Chiang Mai University and Thailand Excellence Center for Tissue Engineering and Stem Cells for facilities of doing research and financial support.

Finally, I would like to thank my parents for their love and the great support throughout my educational life.

Kanda Fanhchaksai
