ACKNOWLEDGEMENTS

My deepest sincere appreciation to my thesis advisor, Assoc. Prof. Dr. Araya Jatisatienr, for her practical training, valuable suggestions and excellent encouragement throughout this work from the beginning until completion of the thesis. Without her encouragement, I would not have been able to complete this research.

I am also deeply grateful to Asst. Prof. Dr. Chaiwat Jatisatienr and Assoc. Prof. Danuwat Peng-ont for their kind advice, reviewing the manuscript and offering many useful suggestions until completion of this work.

Special thanks to Prof. Dr. Stephen G. Pyne and Assoc. Prof. Dr. Alison T. Ung for providing me an excellent experience such as scientific knowledge, chemical techniques, English language and also laboratory facilities while I stayed in Australia. I received warm welcome and care given to me during my visit at the University of Wollongong which was a great opportunity throughout my life.

I would like to express gratitude to Dr. Pitchaya Mungkornasawakul and Dr. Thunwadee Ritthiwigrom for their kindness, help and valuable suggestion until completion of this thesis.

I would like to thank Dr. Willford Lie at Department of Chemistry, University of Wollongong for his useful help in NMR analysis and kind assistance. Likewise, I wish to phrase my appreciation to Mr. Jame F. Maxwell at Department of Biology, Faculty of Science, Chiang Mai University for his identification of plant materials.

iii

I also would like to thank the members of the Jatisatienr and Pyne research groups for their warm friendship. I would like to thank the staffs in the Department of Biology, Faculty of Science, Chiang Mai University and Department of Chemistry, University of Wollongong.

I like to emphasize my grateful to Office of the Higher Education Commission, for a supporting grant under the program Strategic Scholarships for Frontier Research Network for the Ph.D. Program Thai Doctoral degree for this research and the Conservation and Utilization of Biodiversity Resources Program, Department of Biology, Faculty of Science, Chiang Mai University for financial support.

Finally, I am deeply grateful to my beloved family, father, sister, my dear husband and all my friends, for their wonderful inspiration, generous understanding and loving support throughout my life.

Sukanda Chaiyong
