ACKNOWLEDGMENT

I would like to send my sincere gratitude to Dr. Suphawat Sinsuwongwat, my advisor at Biotechnology Division School of Agro-Industry, Faculty of Agro-Industry, Chiang Mai University, for his kindness, valuable suggestions and encouragement that have been given to me throughout this research. He has given many advices and assistances; furthermore, he always forgives my entire mistake and also every student in our laboratory. My knowledge and success at this point receive from him.

I am grateful to Asst. Prof. Dr. Sasitorn Wongroung of Biotechnology Department, Faculty of Agro-Industry, Chiang Mai University, Asst. Prof. Dr. Piyanuch Niamsup and Dr. Pairote Wongputtisin of Biotechnology Division, Faculty of Science, Maejo University who gave many valuable advices, suggestions on this thesis.

Thank you for all members in Microbiology Laboratory for their kind helps and warm relationship.

Finally, I would like to express my special thanks for my family, mother, father, sisters, aunts and also all relations who have encouraged my education and respected my decisions.
