Asst. Prof. Dr. Rattikorn Yimnirun

Anucha Watcharapasorn
.....CO-ADVISOR
Asst. Prof. Dr. Anucha Watcharapasorn

ACKNOWLEDGEMENTS

This thesis has been accomplished during the period of June 2007 to September 2011, in co-operation between Department of Physics and Materials Science, Faculty of Science, Chiang Mai University, Thailand, and School of Materials Science and Engineering, University of New South Wales, NSW, Australia

I must acknowledge many people who have helped me throughout this work and greatly increased the quality of my education. First of all, I would like to acknowledge my supervisor, Asst. Prof. Dr. Sukanda Jiansirisomboon for valuable suggestion, good supporting and discussions during the course of the PhD project especially during the writing of this thesis. I would also like to thank my committee members, Asst. Prof. Dr. Anucha Watcharapasorn, Asst. Prof. Dr. Rattikorn Yimnirun, Assoc. Prof. Dr. Supon Ananta and, especially, the external committee member, Dr. Anurak Prasatkhetragarn, for their time and efforts to be members of my Ph. D. examination, and for their helpful and valuable comments of the research in general and of this thesis in particular.

I must give a special thank to Prof. Dr. Mark Hoffman for all opportunities, supports, suggestions and instructions about this work while I was in School of Materials Science and Engineering, University of New South Wales (UNSW), Australia. I would like to thank Hugh Simons and Jerry Luo at UNSW for their assistance, helpful suggestion and important knowledge about this work, especially, ferroelectric and fatigue measurements.

I would also like to thank my former Ph.D. colleagues, badminton group and friends at CMU, Dr. Wanwilai Vittayakorn, Dr. Chontira Sangsubun, Dr. Worawut Makcharoen, Dr. Nittaya Jaitanong, Dr. Muangjai Unruan, Dr. Parkpoom Jarupoom, Mr. Weeraphong Sungwarl, Miss Rattana Orapakdee, Mr. Natthapong Wongdamnern, Mr. Wittawat Wajabandit, Mr. Thanapong Sareein, Miss Pharatree Jaita, Miss Tharathip Sreesattabud, Miss Ampika Rachakom, Miss Pasinee Siriprapa, Miss Orapim Namsa, Miss Napatporn Petnoi, Mr. Methee Promsawat, Mr. Panuphong Jaiban and the other members of Electro-Ceramic Research Laboratory, Department of Physics and Materials Science, Faculty of Science, Chiang Mai University who have played, helped, cheered and encouraged me to get to this point. The experiences I have shared with them have helped shape who I am today.

I am very grateful to the Royal Golden Jubilee Ph.D. Program, Thailand Research Fund (TRF) and the Graduate School, Chiang Mai University for their contribution in funding my research.

Most of all I would like to thank people who take care of me, especially my parents and my younger sisters, Mr. Wanna Thongmee, Mrs. Nunanong Thongmee, Ms. Warawan Thongmee and Ms. Napawan Thongmee for always believing in me and encouraging me to achieve my goals. I would never finish this study without their encouragement and full support. I am truly thankful.
