	Page
Acknowledgements	iii
Abstract in Thai	iv
Abstract in English	v
Table of Contents	vi
List of Figures	vii
Chapter 1 Introduction	1
Chapter 2 Preliminaries and Basic Concepts	9
2.1 The Spacial Functions	9
2.1.1 The Gamma Function	9
2.1.2 The Dirac-delta Function	10
2.2 Distribution	13
2.3 Partial Differential Equations	17
2.3.1 Elementary Solutions	18
2.3.2 Fourier Transform	19
Chapter 3 Generalized Heat Kernel Related to the Operator L_m^k and Spectrum	24
Chapter 4 Generalized Wave Equation Related to the L_m^k Operator	29
Chapter 5 On the Nonlinear Product of Laplacian Related to the Biharmonic Equation	36
Chapter 6 Conclusion	39
Bibliography	42
Vita	44

LIST OF FIGURES

Figure	Page
3.1 The solution $u(x, t) = e^{-t} \sin(\sqrt{3}x)$.	27
3.1 The solution $u(x, t)$ at $t = 0$.	28
3.1 The solution $u(x, t)$ at $t = 500$.	28
3.1 The solution $u(x, t) = \cos t \sin(\sqrt{3}x)$.	35
