ACKNOWLEDGEMENT

I would like to express my sincere respect and gratitude to my chief advisor, Dr. Puongtip Kunanusorn, for her excellent guidance, encouragement, valuable advice, and generous help in writing this thesis as well as for her strong support of my studies.

I am most grateful to my thesis co-advisors, Assoc. Prof. Dr. Ampai Panthong, Dr. Natthakarn Chiranthanut, and Dr. Parirat Khonsung, including the staff of the Department of Pharmacology, Faculty of Medicine, Chiang Mai University for their advice during doing my research work.

I would like to express my gratitude to Asst. Prof. Dr. Chaiyong Rujjanawate (School of Health Science, Mae Fah Luang University) for providing the plant extract.

The Faculty of Medicine, Chiang Mai University is greatly appreciated for the Endowment Fund for the research work.

Finally, I am especially grateful to my family for their support, helpfulness, understanding, and encouragement.

Phornchai Pingsusaen
