List of Figures	xv
Abbreviations	xviii
CHAPTER 1 INTRODUCTION	1
1.1 Rationale	2
1.2 Research Questions	4
CHAPTER 2 LITERATURE REVIEWS	5
CHAPTER 3 MATERIALS AND METHODS	7
3.1 Selection of the villages and households	7
3.2 Study areas	9
3.3 Geology and Geomorphology	11
3.4 Climate	13
3.5 Field survey	14
3.6 Laboratorial Methods	20
3.7 Land evaluation according to FAO/ITC-Ghent method	23

TABLE OF CONTENTS (Continued)

	Page
CHAPTER 4 RESULTS	25
4.1 The situation of three villages	25
4.2 Properties of individual fields	27
4.2.1 Kho Vang village	27
4.2.2 Na Ten village	44
4.2.3 Ta Lang Thap	58
4.3 Location profile selection	71
4.4 Soil profile description and laboratory results	78
4.5 Land evaluation by LSC/ITC-Ghent for fields	85
4.5.1 Assessment of the climate	85
4.5.2 Soil evaluation	85
4.6 Comparing Stock of organic carbon and nitrogen for all fields of six selected farmers	89
4.6.1 Weighting Corg and Nitrogen of the topsoil for all fields of the selected farmers	89
CHAPTER 5 DISCUSSION	94
5.1 Hypothesis I	94
5.1.1 Characterize individual fields	94
5.1.2 Comparison of soil fertility of the six soil profiles by the LSC/ITC-Ghent method, Landon (1984) and Jahn (2006)	95
5.2 Hypothesis II	105
CHAPTER 6 CONCLUSION	110
REFERENCES	112

TABLE OF CONTENTS (Continued)

APPENDICES	117
Appendix A Climate requirement for maize crop by Sys et al. (1993)	118
Appendix B Topographical and soil requirement for maize crop (Sys et al.1993)	119
Appendix C Evaluation of soil quality according to Landon (1984)	120
CURRICULUM VITAE	121

LIST OF TABLES

Table	Page
3.1 Six selected Thai households	8
3.2 General information of three villages	10
3.3 Topography, climate and soil requirement for crops (Sys et al. 1993 and Graef 1999, modify)	23
3.4 Index value for suitability classes	24
4.1 General information of the six households	25
4.2 Output and input of maize crop of Y1-kv from 2008 to 2010	29
4.3 Results of the field work and lab-analysis data of Y1-kv	30
4.4 Input and output of maize crop of Y2-kv 2008-2010	32
4.5 Input and output of maize crop of Y3-kv 2008-2010	34
4.6 Input and output of maize crop of H1, 2008-2010	37
4.7 Input and output of maize crop of H2, 2008-2010	39
4.8 Input and output of maize crop of H3, 2008-2010	41
4.9 Field H4 information	42
4.10 Input and output of maize crop of B1, 2008-2010	46
4.11 Input and output of maize crop of B2, 2008-2010	48
4.12 Input and output of maize crop of B3, 2008-2010	49
4.13 Input and output of maize crop of B4, 2008-2010	50
4.14 Input and output of maize crop of Y1-nt, 2008-2010	53
4.15 Input and output of maize crop of Y2-nt, 2008-2010	54
4.16 Input and output of maize crop of Y3-nt, 2008-2010	56
4.17 Input and output of maize crop of BA1, 2008-2010	60
4.18 Input and output of maize crop of BA2, 2008-2010	62
4.19 Input and output of maize crop of BA3, 2008-2010	64

LIST OF TABLES (Continued)

Table	Page
4.20 Input and output of maize crop of BA4, 2008-2010	65
4.21 Input and output of maize crop of T1, 2008-2010	67
4.22 Input and output of maize crop of T2, 2008-2010	69
4.23 Process and location of selected soil profile in Mr. Yen's fields	72
4.24 Process and location of selected soil profile in Mr. Hac's fields	73
4.25 Process and location of selected soil profile in Mr. Bien's fields	74
4.26 Process and location of selected soil profile in Mr. Yen-nt's fields	75
4.27 Process and location of selected soil profile in Mrs. Bau's fields	76
4.28 Process and location of selected soil profile in Tuan's fields	77
4.29 Description of soil profile Y at field	78
4.30 Lab-analysis result-Profile Y	78
4.31 Description of soil profile H at field	79
4.32 Lab-analysis result-Profile H	79
4.33 Description of soil profile B at field	80
4.34 Lab-analysis result-Profile B	80
4.35 Description of soil profile Y-nt at field	81
4.36 Lab-analysis result-Profile Y-nt	81
4.37 Description of soil profile BA at field	82
4.38 Lab-analysis result-Profile BA	82
4.39 Description of soil profile T at field	83
4.40 Lab-analysis result-Profile T	84
4.41 Climate Index and Climate Rating for maize crop	85
4.42 Wetness rating and topographical rating for maize crop	86
4.43 Soil physical rating for maize crop	86
4.44 Soil chemical rating for maize crop	87
4.45 Calculations of Soil Index from individual categories	87

LIST OF TABLES (Continued)

Table	Page
4.46 Calculations of Land Index from Climate Rating and Soil Index	88
4.47 Calculation the Land Index without the topographical factor	88
4.48 Stock of Corg and N of the topsoil for all fields of Mr. Yen-kv (rich farmer)	90
4.49 Stock of Corg and Nt of the topsoil for all fields of Mr. Hac (poor farmer)	90
4.50 Stock of Corg and Nt of the topsoil for all fields of Mr. Bien (rich farmer)	91
4.51 Stock of Corg and Nt of the topsoil for all fields of Mr. Yen-nt (poor farmer)	91
4.52 Stock of Corg and Nt of the topsoil for all fields of Mrs. Bau (rich farmer)	92
4.53 Stock of Corg and Nt of the topsoil for all fields of Mr. Tuan (poor farmer)	92
5.1 Summarize land evaluation for the six soil profiles- LSC/ITC-Ghent	102
5.2 Comparing labor ratio between rich and poor farmers	108

LIST OF FIGURES

Figure	Page
3.1 Location of study site	9
3.2 Main geological units in Yen Chau district (Modified from sub-project B4)	12
3.3 Climate in Yen Chau from 1998 to 2007	13
3.4 Land forms according to FAO 2006	15
3.5 Land form units, drills and small profile	16
3.6 An example of the process with GIS to decide where to dig a soil profile	18
4.1 Plot locations of the rich (Y-kv) and poor (H) farmers in Kho Vang village	27
4.2 Y1-kv field information	28
4.3 Division of Y1-kv plot into landform units	29
4.4 Y2-kv field information	31
4.5 Division Y2-kv plot into landform units	33
4.6 Y3-kv field information	33
4.7 Division of Y3-kv plot into landform units	35
4.8 H1 field information	36
4.9 Division of H1 plot into landform units	37
4.10 H2 field information	38
4.11 Division of H2 plot into landform units	39
4.12 H3 field information	40
4.13 Division of H3 plot into landform units	41
4.14 Division of H4 plot into landform units	42
4.15 Plot locations of the rich (B) and poor (Y-nt) farmers in Na Ten village	44
4.16 B1 field information	45
4.17 Division of B1 plot into landform unit	46
4.18 B2 field information	47

LIST OF FIGURES (Continued)

Figure	Page
4.19 Division of B2 plot into landform units	48
4.20 Division of B3 plot into landform units	49
4.21 B4 field information	50
4.22 Division of B4 plot into landform units	51
4.23 Division of Y1-nt plot into landform units	52
4.24 Y2-nt field information	53
4.25 Division of Y2-nt plot into landform units	54
4.26 Y3-nt field information	55
4.27 Division of Y3-nt plot into landform units	56
4.28 Plot locations of the rich and poor farmers in Ta Lang Thap village	58
4.29 BA1 field information	59
4.30 Division of BA1 plot into landform units	60
4.31 BA2 field information	61
4.32 Division of BA2 plot into landform units	62
4.33 Division of BA3 plot into landform units	63
4.34 BA4 field information	64
4.35 Division of BA4 plot into landform units	66
4.36 T1 field information	67
4.37 Divided T1 plot into landform units	68
4.38 T2 field information	69
4.39 Division of T2 plot into landform units	70
4.40 Comparison stock of Corg and N of the topsoil of 20 fields of six selected farmers	93
5.1 Comparing Corg and Nt of the six soil profiles at upper horizons (topsoil and second horizon)	101

LIST OF FIGURES (Continued)

Figure	Page
5.2 Average maize yield in three years (2008-2010)	103
5.3 Input of chemical fertilizer into maize's fields	103
5.4 Comparison of the rich and poor farmers' total upland field areas (ha)	105
5.5 Input of maize seed of the six selected farmers	106
5.6 Expenditure of chemical fertilizer 2008-2010	107

ABBREVIATIONS

BD	Bulk Density
BS	Base Saturation
Ct	Total Carbon
CEC _{pot}	Potential Cation Exchange Capacity
C _{org}	Organic Carbon
CC	Concave-Concave
CS	Concave-Straight
CV	Concave-Convex
FAO	Food and Agriculture Organization
Fig	Figure
GIS	Geographic Information System
GPS	Global Positioning System
ha	Hectare
HCL	Hydrogen Chloride Acid
H ₂ O	Water
H ₂ O ₂	hydrogen peroxide
ITC	International Training Center
K _a	Available Potassium
KCL	Potassium chloride
kg	Kilogram,
km	Kilometer
LSC	Land Suitability Classification
Nt	Total Nitrogen
NPK	Nitrogen-Phosphate-Postasium
Pa	Extractable Phosphorus

SS	Straight-Straight
SV	Straight-Convex
SC	Straight-Concave
UTM	Universal Transverse Mercator
VS	Convex-Straight
VV	Convex-Convex
VC	Convex- Concave
WGS	World Geodetic System
%	per cent
>	greater than
<	less than
0	degree
°C	degree Celsius
