ACKNOWLEDGEMENTS

I wish to express my deepest gratitude and appreciation to Associate Professor Dr. Werawan Ruangyuttikarn, Associate Professor Dr. Nirush Lertprasertsuke and Assistant Professor Dr. Sirirat Chuncharunee, my thesis advisor and co-advisors for their special efforts, unforgettable support and excellent encouragement. This thesis could not have been accomplished without their understanding and professional guidance.

Additionally, I would like to thank the staffs at the Laboratory Animal House, Research Laboratory Equipment Center and Department of Forensic Medicine, Faculty of Medicine, Chiang Mai University for their help and encouragement.

Thanks for all toxicology students for their friendship and encouragement.

I would like to give my special acknowledgement to the Faculty of Medicine Endowment Fund, Faculty of Medicine, Chiang Mai University for their financial support.

Finally, I am particularly grateful to my parents and family, all of whom were especially supportive and extremely helpful, for their understanding emotional assistance and endless encouragement.

Ploypailin Chattaviriya
