APPENDICES	
- Appendix I - Habitat quality assessment	202
- Appendix II - Monthly physico-chemical parameters values	208
- Appendix III - Trichoptera abundance of each sampling sites	220
- Appendix IV - Publication	229
CURRICULUM VITAE	240

LIST OF TABLES

Table	Page
3.1 Secondary data sources which were added in Thai Trichoptera Database	21
3.2 Location, habitat type and altitude of light trap collecting in current study during November 2009 – 2010.	23
3.3 Physico-chemical parameters and their analysis method and unit.	35
4.1 List of family, family code, genera, genera code and number of species in each genera of Trichoptera in Thailand.	41
4.2 Species inventory and known distribution of Trichoptera in Thailand and neighbor countries in Southeast Asia.	44
4.3 Summary of each Trichoptera species showing biotope types, total occurrences, monthly abundance, and total abundance based on Thai Trichoptera Database.	86
4.4 Average and standard deviation of physico-chemical parameters of sampling sites in Doi Suthep-Pui National Park during November 2009-November 2010.	138
4.5 Average and standard deviation of physico-chemical parameters of sampling sites in Doi Inthanon National Park during November 2009 - November 2010.	139

LIST OF TABLES (CONTINUED)

Table	Page
4.6 Elevation, habitat type, number of light trap collection, number of species found and number of individuals found in sampling sites from Doi Suthep-Pui and Doi Inthanon NPs during November 2009 - November 2010.	148
4.7 Species occurrence and abundance of adult male trichoptera found in Doi Inthanon and Doi Suthep-Pui NPs compared to Prommi, 1999 and Thamsenanupap, 2005. Temporal distribution, abundance status and distributional specificity were determined based on all data.	156
5.1 Summary of biotope type distribution in each families.	178

LIST OF FIGURES

Figures	Page
2.1 Interaction and factors that influence biodiversity patterns in lotic ecosystems.	9
2.2 The number of species and percentage in each major biogeographical region.	13
2.3 Number of species found in Thailand and shared species with some Southeast Asia countries.	17
3.1 Sampling site location in Doi Suthep-Pui (upper) and Doi Inthanon National Parks	29
3.2 Sampling sites in Doi Suthep-Pui National Park	30
3.3 Sampling sites in Doi Inthanon National Park	31
3.4 Light (pan) trap operating and adult Trichoptera which were caught	33
4.1 The location of sampling sites which were reported from 1987 – 2010 and distribution zone.	39
4.2 Total number of species, total number of new species, yearly accumulation number of total species and new species from 1987 - 2009 compared with prior information.	40
4.3 Number of species, number of holotype and ratio of each families which have represented in Thailand.	40
4.4 Family distribution in each biotope types.	85

LIST OF FIGURES (CONTINUED)

Figures	Page
4.5 Elevation of sampling sites in Doi Suthep-Pui and Doi Inthanon NPs.	137
4.6 Habitat assessment score of sampling sites in Doi Suthep-Pui and Doi Inthanon NPs during November 2009 - November 2010.	137
4.7 Monthly calculated discharge (m^3/s) of a) sampling sites in Doi Suthep-Pui NP and b) in Doi Inthanon NP during November 2009 - November 2010.	140
4.8 Monthly pH of a) sampling sites in Doi Suthep-Pui NP and b) sampling sites in Doi Inthanon NP during November 2009 - November 2010.	141
4.9 Monthly total dissolved solid (TDS :mg/l - bar graph) and conductivity ($\mu S/cm$ - line graph) of a) sampling sites in Doi Suthep-Pui NP and b) in Doi Inthanon NP during November 2009 - November 2010.	142
4.10 Monthly dissolved oxygen (DO: mg/l - dotted graph) and biochemical oxygen demand (BOD: mg/l - bar graph) of a) sampling sites in Doi Suthep-Pui NP and b) sampling sites in Doi Inthanon NP during November 2009 - November 2010.	143
4.11 Monthly nutrients (mg/l) of sampling sites in Doi Suthep-Pui NP during November 2009 - November 2010 a) ammonia nitrogen, b) nitrate nitrogen and c) ortho-phosphate.	144

LIST OF FIGURES (CONTINUED)

Figures	Page
4.12 Monthly nutrients (mg/l) of sampling sites in Doi Inthanon NP during November 2009 - November 2010a) ammonia nitrogen, b) nitrate nitrogen and c) ortho-phosphate.	145
4.13 Monthly turbidity (mg/l) of sampling sites in a) Doi Suthep-Pui and b) Doi Inthanon NPs during November 2009 - November 2010.	146
4.14 Number of species and individuals of male trichoptera caught via light trap during November 2009 - November 2010 from sampling sites in a) Doi Suthep-Pui and b) Doi Inthanon NPs.	149
4.15 Number of individuals and species monthly found during November 2009 - November 2010 in Doi Suthep-Pui National Park.	150
4.16 Number of individuals and species monthly found during November 2009 - November 2010 in Inthanon National Park.	151
4.17 Dendrogram based on binary data using PCORD (Jaccard distance measure)	152
4.18 Two-Way indicator Species Analysis (TWINSpan) using PCORD statistic program.	152
4.19 Species richness estimate using <i>EstimateS</i> in Doi Suthep-Pui and Doi Inthanon National Parks.	154
